Hawks Relyed On Materials To Kill Gophers For Them

Hawks are not bothering to kill gophers any more. The automobile is doing it for them, Dan McCowan,

Yours ago they used to float lazily over the prairie, waiting to pounce on an unwary gopher. Now they perch on roadside telephone poles, waiting for speeding automobiles to play the part of executioner.

It was just an example, Dan said, of how animals are going modern.

Similarly, he said, magpies and crows are to be found on forest waste, waterways and in the open country. They are daily scavenging several hundred gophers on the Banff-Calgary highway.

Das couldn't say why gophers never learned. They continued to play dead on the highway, and apparently unable to learn from the deaths of an automobile, were slaughtered in hundreds.

The evidence was to be found along the highway, he said. These mice found kernels of grain dropped by hunchbacked gophers. The mice had followed them among them to

PRAYERS FOR THE KING AND ROYAL FAMILY

O Lord, show Thy mercy upon us,
And grant us Thy salvation.
O Lord, save the King:
Who placed his trust in Thee,
Send him home from Thy holy place,
And evermore mightily defend him.
Be unto him, O Lord, a strong tower,
From the face of his enemies.
Endow his ministers with righteousness,
And make Thy chosen people joyful.
O Lord, save the people,
And bless their inheritance,
Give peace in our time, O Lord.
Because there is none other that fighteth for us
But only Thou, O God.
O Lord, hear our prayer;
And as our cry come unto thee,
Thou, O God.

NYN

Saviour again to Thy dear name we raise
With our accord our parting Hymn of Praise;
We thank to bless Thee our our worship comes,
Thou, holy hallelujah, wait Thy word of peace.
Grant us Thy peace throughout our earthly life,
Our helm in armor, and our stay in strife;
Then, when Thy voice shall bid our conflict cease,
Call us, O Lord, to Thine eternal peace. Amen.

BENEDICTION

NYN

O God our help in ages past,
Our hope for years to come,
Our shelter from the stormy blast,
And our eternal home.
Beneath the shadow of Thy
Thine
Thy saints have dwelt secure
Sufficient in Thine arm alone,
And our defense is sure.
Before the hills in order stood
Or earth received her frame,
From everlasting Thou art God,
To endless years the same.
A thousand ages in Thy sight
Are like an evening past;
Short as the watch that ends the night
Before the rising sun.
Thou sitst on ever lasting throne,
Hear all its sons away;
They fly forgotten as a dream
From the eye of the opening day.
O God our help in ages past,
Our hope for years to come;
Be Thou our guard and God,
And our eternal home. Amen.

Council Buy Snow Plow

The Village Council is now the proud owner of one of the latest type snow plows, purchased from the Richardson Machinery Co. at a cash price of \$670. An ordinary truck and a plow is guaranteed to do the perfect job of clearing the snow from the road at a cost of about 30 miles per hour where snow is heavy. Where the snow is packed hard the speed is of course reduced considerably, and less than 10 miles an hour. The plow will arrive in Bashaw this week end, and every interested motorist will wish to see it. The plow will be on hand to witness the preliminary trials. Messrs Nelson and Smith will be in charge.

On Thursday last, the boys' group, Headlights and Bells, held a singing and toboggan party. After a couple hours fun the boys retired to their beds for a much needed rest of some and waders. The leaders present were, Don Holt, J. C. Pearson, S. E. Pearson and T. J. Stetson.

Plans for construction of a new Branch Memorial students' recreation center at the University of British Columbia are well advanced. The new building will begin within the next month on the proposed \$100,000 structure. The building will perpetuate the memory of Lord-Collins B. W. Smith, former dean of the university's faculty of applied sciences and a Canadian-born student killed with his wife and two other persons in an airplane crash at Reno, Nev., last summer.

DETROIT SAYS

"Planning to have your first dance this Spring? Then you'll want the new Green Ray, or two, to help you the age 17 again favorites of bridesmaids and brides! You'll find this Ray on any one of our colorful, shimmering, brilliant, shimmering, and a grand total of 100 no colored Ray may also see Ray was so undervalued. For the streetest other the three shades of one color, or shimmering colors.

To achieve this Ray will find complete instructions for making the Ray, or Shimmering of it and of the shades needed; (shimmering preferred).

To obtain this pattern send 25 cents in stamps or only (one registered money order). **Washing Postings Station, 275 Madison Ave., New York.**

There is no other Shimmer pattern book published.

though that result are not available, the fact that the 1980 census indicates that a comparison of the observations of 1955 and 1980 in the United Kingdom will not show a substantial change in the mean. This does not necessarily mean that a drift does not exist, but only that it is too large now to distinguish from those that in the seven following years. The observations were collected into one by the same person, and the results are not sufficient to show a displacement of the data by more than a year, that is,

you might have killed Torrey, he went on slowly, his brown eyes traveling over the man's light sign. "you could have killed Torrey."

Shore's date the four things necessary to kill a cold outside, again the four, because the four things and four is the number on the backside and "four" is the most important number in the world. And for Sherry, there is only one.

RAILWAYS AND MOTOR TRUCKS IN COMPETITION

MOTOR TRUCKS IN COMPETITION

Hamilton, Ont. — Competition between railways and motor trucks will far from be established on a purely economic basis, Sir Edward Beal, president of the Canadian Pacific Railway, said in an address before the Engineering Institute of Canada.

He defended the railways against the charge they had not adequately attempted to meet the competition and heavy traffic conditions in the highway transportation business were unsatisfactory even to the engaged in it, Sir Edward suggested.

Because of this, resulting in actual competition among the big

But Edward said there had been considerable confusion as to the extent of damage done to railways by highway competition. While Canadian's total volume of business had increased since 1926, construction and

There was no reason to be concerned that carloadings during the period were only about 66.8 per cent of the 1926 volume since these were industries which ordinarily contributed mostly to railway traffic. It was certain that motor truck con-

The public's general opinion, he said, that railroads were "sleepy as the swells" in not intelligently competing highway transportation was wholly barless.

Competition of private motor cars
Expansion of private motor car use
Increased importance of tourism
Improvement in agriculture
Building highways and construction
A great mileage of new roads.
Should have been had policy for the
railways to oppose this natural
development of social economic life."

The Bashaw Star

Collier's

"Collier's" as a means of stabilizing prices would be right if lower price levels could be maintained rather than vice versa. The average farmer is forced to pay down his debt, at most a decreased purchasing power. This causes the farmer to take a big way of reduced turnover. Concomitant prices are: already as high as the average person can afford to pay in dollars on items. But the retail merchant is not getting any more than his just profit. Any rise in price of the goods he has to sell would not be in his own or his customers' advantage.

We believe that the strength of the latter interests have on the important industries in this province is the real reason for unduly high prices. Prices are being forced regardless of cost of production. Let this monopoly be crushed and a big step will have been taken towards economic recovery.

DEVICE TO COUNTERACT RADIO STATIC

By the Radio Inspector at Edmonton

According to the Radio Inspector at Edmonton the interference in radio reception is caused by conditions arising from sun spots. The spots on the sun's surface, which are cycles of eleven years, and the present condition, more or less, will last for two years.

Those nearest the transformers will be the chief sufferers. It is possible to cut down this interference about 50% by installing a condenser, particularly of which can be obtained at the Village office or from any radio agent.

U.G.G. HEAD ADVOCATES EXTENSION MINIMUM PRICE PLAN

Now that the Dominion Government has decided to apply the principle of a minimum price a portion of the wheat crop 1935-36, the principle should be extended to all farmers who sold wheat during that year, according to a statement made by Mr. B. B. Law, President of United Grain Growers Limited.

That would mean giving to those farmers who sold their wheat on the open market during those months when the price ranged between 5¢ and 6¢ a bushel the minimum price of 6¢.

RETAILERS TO HAVE MASTER CODE

Mail Order Houses to be Subject to Provisions

At the Retail Merchants Convention in Edmonton last week, a "code" was drawn up, which included the fixing of a minimum price for goods. No merchant would be allowed to sell his goods at less than this established price. "Loss leaders" would be abolished. Following is the clause dealing with the minimum price: "A minimum price on any commodity may be set when such commodity is sold at a price which is less than the laid down cost or replacement cost to the general retail trade, whichever is the lower, together with such additional amount or percentage as may be fixed and approved by the minister, as sufficient to provide for the cost of carrying on business fairly attributed to that commodity, pursuant to when given under no. 16 of the trade and industry act."

When farm products are sold at an unfair retail price to the primary producer, the retail price of such commodities, together with the said commodity cannot be sold, and such price when set pursuant to the authority given under the trade and industry act shall become part of the code provisions.

Unfair competition, trade practices, organization, labor, etc., are also dealt with in the code.

TOWN TROUBLE

A lively game of football was in progress at the rink on Sunday afternoon.

Quite a number enjoyed the viewing of the new Chevrolet which were held last week.

C. H. Ray of Mirror was a business visitor to town Monday.

Mr. Hasker returned Friday from a visit in Edmonton.

Ernest Howitt is very ill these days.

The Bashaw Juniors had the Whitehouse Bunkies at the rink on Thursday.

The Jack Trout family are moving to the Mirror town.

The A.Y.P.A. met at the Masonic home on Monday eve.

Mr. Tom Keris has purchased the Moore farm at White Bush.

Mr. Christie's home at the upper end of town was the scene of a blaze which broke out in the clear last Thursday evening. Some stores covering a water pipe ignited and the blaze spread rapidly. Jay and Bruce Coran removed the furniture outside, but fortunately the fire was extinguished before very much damage was done.

Subject: Another Promise: Can We Claim It?

Carlton, Alta. Dynamite was used by 18 men working to clear the course of the Kneehill road blocked Friday when a landslide of several millions of earth "slumped" across the railway tracks and stopped the river bed.

THE BATTLE OF VERDUN WHICH OPENED 20 YEARS AGO ON FEB. 21, 1916 RESULTED IN ONE MILLION BATTLE CASUALTIES.

The battle of Verdun which opened 20 years ago on Feb. 21, 1916 resulted in one million battle casualties. Verdun is symbolic of bloodshed to the French people's memory. The drama of Verdun brought about every other year activity to a temporary cessation and all eyes focused on France's agency. Canadian troops were at this time far removed from the region, but a month later they had a bitter taste of war. The enemy threw more than 2,000,000 shells into the narrow triangle of land between Verdun and the Meuse river. The battle continued until mid summer 1916 and ended only when the battle of the Somme began July 1st.

A SURE SIGN OF SPRING! JACK WEST AND HIS PARTY ENJOYING A BREAK WEEK ON SUNDAY AFTERNOON, COMPLETELY OBVIOUS OF SCHOOL WORK OR LEAD OUTSTANDING.

A few days of hot weather and will Bashaw be wading through water? We have no guess as to what will be the result, however.

RADIO TROUBLES

WILL BE PROBED

Red Deer, Alta.—Onwards of radio receiving sets here have complained of interference and Commissioner R. S. Gillespie has notified city council that he has been in a tussle with the Canadian Radio Commission and that an investigator is to visit Red Deer shortly to check up on the trouble and attempt to correct the situation.

Bashaw brushed a sigh of relief when March came in about the "flood". It was really hot on Sunday for the first time in over two months, and even again it is safe to emerge from the house, thus raising the chance of being frostbitten.

B.C. Federal representatives are endeavoring to secure suitable freight rates grain from the prairie. It is hoped that grain can be shipped to the Orient and back for less than it costs to ship grain direct to B.C. for local consumption.

TOWN TALK

In the Lakeland section W. Durant was elected in Div. 2. Village council meeting will be printed next week.

The Bashaw Legion will hold a 90¢ dance on Tuesday, March 27th. Mr. and Mrs. Thompson have moved into the house opposite the United Church. J. Cunningham received a telegram Monday concerning the death of his sister, Mrs. Boyce at Fairview, Alta. She was a pioneer of that country and greatly respected.

We are glad to note Mrs. McNeil is improved. Miss Thelma Peniston spent Sunday with her people at Rockleaving Bay.

Auctioneer Webb will hold a big sale in Bashaw, Saturday, March 23, at 12 noon.

The Ladies Aid will meet at the home of Mrs. Smith on March 12th at 2 p.m.

Mrs. Harper suffered very painful injuries on Tuesday, while carrying a pan of boiling potatoes, also slipped and the contents were spilled over her right arm and shoulder. She also struck her head while falling. Although Mrs. Harper is bandaged up like a mummy, she is not too badly hurt. She is being treated at the home of her son, who has been called on to assist her. She is being treated at the home of her son, who has been called on to assist her.

LIBERAL CONVENTION TO BE HELD ON MAY 5

Nominating convention of Liberals to select a candidate for the forthcoming by-election in Edmonton will be held in that city, May 1th.

A truck load of Bushawites took in the show at Mirror on Saturday.

BASHAW UNITED CHURCH
Rev T. J. Stanton, M. A. Pastor Services for next Sunday: Bushaw Sunday School, 11 a.m. Matins 11 a.m. Lake Bend 3 p.m.

Subject: What We Dislike Most

A very successful mystery meal was enjoyed by the members of the Bashaw Branch of the Christian Youth Movement last Tuesday. The social was held in the parlour.

Prizes are being given to the Headlight members who have qualified in the following:

- (a) Semaphores.
- (b) Handcraft.
- (c) Church attendance.

First, second and third prizes will be given where the standards have been reached.

Announcements of the winners will be made at the supper in the Masonic hall, Thursday, April 26th at 6.30. Fathers, come and bring your boys.

MRS. OLE STENSTROM DIES AT STETTLER

Mrs. Ole Stenstrom died on Thursday at the Stettler hospital. Mrs. Stenstrom resided at the home of her mother, Mrs. John in Sunday. She is a widow and has three small children and a three weeks old baby.

Mrs. W. W. Scott is expected home from the east this week.

For the first time in the history of Bashaw, there was no one present at the Bashaw High District Court of Revision held last Tuesday, to present their assessment appeals, says Mr. Lynn Wilson, the acting secretary.

HE DOES HIS PART

You are not doing your part by simply putting a coin in the slot, to your window, the real test is at the one who hangs out a flag or marches in the parade, but the good citizen who lays what he needs, the same as he did in normal times, says his bit as they come due and strives to wipe out the debts by making regular payments on them. These kind of citizens are the salt of the earth. They are the only ones who are really entitled to hang out the recovery slogan "I'm doing my part."

LOCAL JOTTINGS

The Council are having trees planted on the street west of the telephone office.

Mr. and Mrs. G. Hines returned to Bashaw last week. Mr. L. E. Humphreys has been on the sick list for a week and was taken to Lacombe hospital for treatment, on Monday.

We saw a man walking home from the section sale, Saturday, wheeling a pump. But there was no lady therein, however.

TREATING FROGS GRAB

As a result of the frost damage in prairie provinces, just fall, it is expected that large quantities of frozen grain will be used for feed. Since much of this feed will undoubtedly be reduced in quality as compared with non-frozen grain, farmers are naturally anxious to avoid further possible damage which might result from such treatment. It has been found that, following treatment by the formaldehyde method, first a grain shows a serious reduction in germination as compared with Lettles' test but that the same grain is not so much damaged and is available for use as safe for farm use.

GRIND GRIP TIRES

pull through

WHEN driving through mud and rain, slush, snow, ice—these ordinary tires get stuck—but not Goodyear's Mud Snow. Mud Snow Grip tires will take you safely through.

There are the greatest tires ever built for traction. Note the deep, continuous bars of rubber that grip on any surface. There are so placed that they stay themselves—never like a chain.

Ground Grip does not so some. Slip ordinary tires. Get it from your nearest Goodyear dealer.

It's a common theme—the "Old Ball," one of the two survivors of early war ships when a string of London newspapers were taken to France to carry British troops to the battle front, has arrived at the Pacific coast aboard the U.S. Pacific Enterprise. The famous old ball, which is being preserved as a relic of the war, is on display at the Vancouver public committee.

TENDERS WANTED

Sealed tenders will be received by the undersigned up to July 14th, 1936, for work only to put in a concrete foundation 8 inches wide at top, and below the black earth on lot 17, underneath the site of the building situated on 1st St. Block 5, Village of Bashaw, known as the flagging building. The putting in of all sand and spalling of debris, if found necessary, to be included in tenders. All necessary building materials will be furnished by owner for the performing of this work.

Also tenders will be received for the painting of the front of above building after the concrete work has been completed with two (2) coats of good painting material. In this case to be furnished by the party receiving the job.

Concrete work to be completed not later than August 15, 1936, and paint job not later than September 1st, 1936. The owner reserves the right to reject any of all tenders. For further particulars see H. J. Dahl, agent to the owner of this building. 48-3

CREAMERY CREAMERY

CLAIMED

We understand the Cive Creamery has been sold to the Cive Creamery, which is now operating on Saturday, June 27th last. The reason given was that owing to the competition of rival creameries, and the competition of trucks hauling cream, the volume of cream purchased did not justify the further operation of this creamery.

We are glad to learn that the proprietor of the Cive Creamery has been employed by the Central Alberta Dairy Pool and will not be deprived of a livelihood in these strenuous times.

The town and district of Bashaw has been agreed by local creamery for 16 years. This creamery pays taxes, employs about 100 men, and its money at home. It would be a serious loss to the district were this creamery forced to close its doors for a like reason, and what was in prospect. It is up to the farmers of this district to stop it, or what their local creamery means to them.

We understand that about 80 per cent of cream produced in the district is shipped out of it. This is quite a loss in purchasing power to the district and if this money were kept at home it would encourage the local creamery, which in turn would be enabled to produce of greater volume to give additional benefits to its patrons.

We believe at this time the local farmers should be a fairly consider what a local creamery means to them and what it would mean if the creamery were no longer in Bashaw. It might mean among other things that the manufacturing business would be in the hands of a few large concerns, who would control prices at the very low level. It is only when the creamery is closed and the farmers are left alone that they find the full measure of what would be realized, and for this reason we call the local producers to give this matter their most earnest consideration. BOOST OUR LOCAL INDUSTRY!

No Necessity For Speeding

There is no necessity for people

to be running about the province at 50 miles and more per hour. In Great Britain the Pedestrian Association, has set a flaky face against speeding, and is clamoring for a country-wide speed limit.

But of the road accidents there are here are due to speeding, and the newspaper examined the circumstances of a large number of accidents due to this cause. It found that the time ought to be gained

seconds. We in Manitowish can be equally certain that 99 per cent. of the speeding on our highways lacks any legitimate excuse. — Winthrop Tribune.

The government is determined to encourage the B.B.C. with "The Voice of England." Germany is 16 transmissions a day already a vast "empire" broadcasting vice.

Many of these German programs are in English and are particularly directed to those whom the Reichsmann calls "Our dear friends and neighbors in South Africa." When the B.B.C.'s plans for duty are complete Britain will be heard throughout the world as a considerably greater strength than

Every effort is being made to make all six of the Deventry transmitters working at maximum efficiency for the time for the proposed world-recognition broadcasts.

Thousands Motion Picture Patrons To Go in Operation

Given thousands sound equipped motion picture theatres will be in operation in the Soviet Union by the end of 1950, according to government plans. The number of theatres, motion picture houses and cinemas of all types is expected to reach 10,000, with an increase of 3,000 over 1949.

New theaters will be built in Longsand, Alton-Asa, Kana, Sandepur, Uten-Ude, Cheloyne-Satama, Kurhor, Ashland and many other cities.

Construction of the country's largest motion picture theatre has been completed in Longsand. It writes out the traditions of a "movie palace."

The facade of the Spectacular building is adorned with 18 statues of Russian giants. The interior is also grandly decorated.

A recent 20-ton statue of a giant was placed in front of the new theatre.

workmen crowded away from the tomb. Their work was done, but they were still plainly sorry, though there was not a word from any of them.

There was no light in the place save that which came from the flickering torches carried by Professor Ellison and John Lansing. Their very lights were awesome, as they played over the room dark and empty, which plainly had not been touched to minister until the laborers work of the archaeologist's workmen had passed it from their place.

They sat crouching as the light went from spot to spot, over the walls to perch on the beautiful paintings. That mood of the grave was everywhere. The silence, the darkness, was terrifying, coming as soon

through the chamber to which they had become used.

Then the dust of her father's light slippers rose off her feet upon a speck in the wall over the marble-granite. It was ancient Egyptian symbol writing and of course Starr could not make it out, but her father did. He cried out in excitement:

"The famous curse of Tut-Ankh-Amun! We're here! Letting! We, too, are doomed!"

A strange chill settled over Starr: so that everything in that ghastly

place danced before her eyes in the flickering torchlight the curiously shaped bowls, the hammered gold and silver, strongly shaped bottles, quivers, tall ancient lamps. They meant nothing to her. She could think of but one thing, and all her preoccupations crowded up into her throat to choke her there. Surely there had been some of the place hidden for so many thousands of years from the outside world. She could not believe it.

"When? What do you mean?"
He explained briefly. "I mean, my dear," he said, but his voice was oddly muted. "That in thirty centuries no living and no pained thoughts. These ancient words spell a warning to the first who dares to violate the sanctity of the tomb. Don't let it shatter you, Starr. That same curse has been found many times before. It's appetition is others."

But was it *expensive*? Even in her heart Sherry could not make herself believe it. That scene was a *wonder*! A *wonder* of *death*!

Sherry glanced about her *heartily*, overcome by the *wonder* of the place. The host, too, as well as the *hand-ker*, was almost *impossible*. Her head was *reeling*; she felt as if she would *swim*, but her limbs were *boiling* out an *indignant* warning. It was not of this place

And the two excited scholars soon had no time to listen to the protests of a frightened girl. It seemed hence to her, cowering in the background, looking gravely out of place while they explored the tomb before approaching the sarcophagus, maintaining over the shaggy figures, the extreme pained eyes, the

teeth, the golden, jewel-encrusted perfume button, a gilded comb, carved in instant design, the dunes of things that would add to Procter-

RESULTS OF GRAIN TEST SATURDAY

The field day under the auspices of the Barab Grain Co. was held on Tuesday, last week at the testing plant south of town. The result of the analysis of grain samples submitted by farmers in this district was very encouraging and showed a remarkable improvement over the quality of grain which was analyzed last year. A greater number of grain samples came under the examination signifying a tendency to variety and good quality.

Good seed only should be used for sowing, and samples of these having good quality wheat are obtainable from the Barab elevator again.

About 4,500 enthusiastic supporters of the Barab Credit movement attended the largest rally at Barab, Thursday. Premier Albertson was the main speaker and gave a very convincing account of the government's activities. Mr. and Mrs. Dick Gottlieb of Barab, who have been, since the birth of a son.

SOCIAL CREDIT

The provincial legislature on Monday night and reading to the act to provide for a reduction and settlement of the provincial debt.

Second reading was given in the legislature in the act which jointly validates the order-in-council authorizing issuance and circulation of the provincial property certificates in Edmonton.

Introduced into the legislature on Thursday, the Government's Social Credit Act, entitled "The Act to Provide the People of Alberta with Additional Credit," stipulates that basic credit money will be limited to those who register and sign covenants with the Alberta Government. Other features are that the Superintendent of the credit certificate may cancel registration of any person and deprive him of dividends for certain reasons. There can be no appeal to the courts.

Deposits of "Alberta Credit" in the credit house may be subject to such levy as the government may deem the "unwarranted increase."

No person may recover from the Alberta credit house any payment in currency or otherwise for Alberta credit.

MEMPHIS NEWS

(Intended for last week)

The home of Mrs. H. B. Eyrstone was the scene of a rare party for Mrs. Joe Culp on Thursday evening, Aug. 27th. On behalf of her friends, Mrs. Culp was presented with a lovely gift, and later in the evening a dainty lunch was served by the hostess.

Mrs. Mary Hays, of Chicago, who has been visiting the home of her sister, L. F. Boyer here, left for visit in Leeland.

 The deceased was well known
 in the province for his promi-
 nent part taken in the Ma-
 sonic order. He was a resident
 of Mirror for 14 years. For
 some years he was a teacher on
 the high school staff here. It was
 through his efforts that the
 Young Men's Association of

Pres. Roosevelt Re-Elected in U.S. - Landon Makes Poor Showing

MEMORANDUM DAY

November 11th has been set apart as Remembrance Day. On this date, 18 years ago, the great war ended. A year which lasted over 4 years and in which 80,000 Canadians held down their breath.

There was a big parade in Ottawa, Canada, on this day. It was a day of remembrance to the names of those who made the supreme sacrifice that we might live in peace and safety. It is inspiring to read the names of the brave men who were killed in the war. As we read the names of the brave men who were killed in the war, we are reminded of the sacrifices that were made for us.

Every business day last year Life Insurance Companies in Canada distributed, to Canadian policyholders and beneficiaries, over Half a Million Dollars.

Life Insurance enables YOU to provide financial security for yourself and family. It also benefits the country as a whole through the investment of Life Insurance funds in important public enterprises.

Life Insurance defines give employment on vacation throughout the Dominion. Transportation facilities are extended, highways built, schools paved, schools erected, water, sewage and other necessary works constructed. Life Insurance dollars help to finance the future, and bring business in the general money and country marchant.

In the past few years of business depression, Canadian policyholders and beneficiaries received over Eight Hundred Million Dollars in payments from their Life Insurance funds. Life Insurance Companies have fulfilled every obligation one hundred times as the dollar.

As a policyholder, YOU can make profitable plan in sharing in this, the greatest co-operative business in Canada.

ROCKING HAY

Mr. Staiten held service in the school, attended by the usual good congregation. The ladies of the church are having a social evening in the school on November 20th.

Ray Davidson, son of Calgary with Mr. and Mrs. Henry Chosen and had a most enjoyable time "doing" the city.

Mr. Staiten was moved into his new home which is a great credit to his skill as a carpenter. Tom Staiten did the plastering.

The Community Club met at Mrs. Dawson's last Thursday with new members present, also two visitors, Mrs. Traynor, Mr. and Mrs. Bob Miller, a girl on drums, and from the Bashaw Community.

The next meeting will be held at Mrs. Davidson's when new members will be invited. Those who wish to take home the little book only.

AN APPRECIATION

The members of the Bashaw branch staff wish to thank all those who so kindly lent their exhibits which made our reception a success. Your cooperation and patronage were most appreciated, and the sum \$4.45 was realized. We sincerely thank you.

Once more we were obliged to pass by the bodies in silence. The skulls were collected by Kalmian hunters who were either killed or who had to flee when the ice broke away, while the fruits of their labors were taken away through the ice track, to finally go to the bottom as the ice disintegrated, unless they were found by other hunters and taken into shore.

As a Life Insurance Policyholder You Share in the Ownership of These Valuable Assets

Government Bonds First Mortgages Municipal Bonds Industrial Securities Public Utility Bonds

YOUR savings in Life Insurance—which help to form the Assets of the company in which you are insured—not only protect you and your family but also make you a part owner of high-grade securities.

For example—in a Life Insurance policyholder, you share in the ownership of Government and Municipal bonds. These bonds provide for the construction of highways, railways, canals, schools, water and sewage systems, and other important public enterprises.

You likewise have a definite financial interest in Canadian industries, and in Canadian homes and farms.

The Life Insurance companies, which your savings and their heirs have built up, acting on behalf of yourself and 5,500,000 other policyholders, invest the Assets you have contributed to them. In making these investments, they consider the utmost care to secure safety with a satisfactory yield.

Of the combined Assets in the Life Insurance Companies operating in Canada, the major part is invested in Government and Municipal bonds and debentures. Large amounts are also invested in first mortgages on carefully selected city, town and farm properties, and in loans to policyholders.

You can take satisfaction in the fact that Life Insurance companies in Canada have faithfully discharged their obligations. None is in peril of becoming financially overcast, every obligation guaranteed by their policies has been fulfilled.

A MERRY CHRISTMAS TO ALL!

Once again we celebrate the coming of Jesus into the world. Christmas is a revelation of God's interest and love for all men everywhere.

This old story loses nothing of its charm and power as it passes down the ages year by year. God Himself has come to His people; here to abide with them; to bless them and encourage them in ways of righteousness, peace and good will. What great miracles His presence with us have wrought as the seasons pass and three happy days come again and again.

We are reminded at Christmas time of how much we owe our Heavenly Father and our loving Saviour which we can never repay. We are also reminded of how much it is our privilege to do for our God and for our fellows, by making real the spirit of Christmas, and the purpose of Christmas in God's world and among God's people.

We are again reminded that

The Farmer's Income

The use of good seed of a recommended variety will improve the quality of the farmer's crops—so will increase his income.

Every farmer can use at least some good seed and so build up the quality of his crops.

See the nearest Seale or Home Agent about seedling, or contact price. Registered or Certified seed needed in the seed.

As a Life Insurance Policyholder
Your Policy is Larger
Your Premium is Smaller
Because of Interest Earnings

YOU get more Life Insurance, and you pay less for it, because of interest.

The hard-earned savings that you set aside each year for the financial protection of yourself and your family are invested for you by your Life Insurance company in government and municipal bonds, first mortgages, public utility bonds, industrial and other interest-bearing securities.

Because of the interest earnings—the real value of your savings—your money makes more money, and this mounting power of your savings is put to work for you from the moment you pay your first Life Insurance premium.

At the moment, the Life Insurance

company that you have chosen to act for you begins accumulating necessary funds to pay your policy claim promptly and in full when it falls due.

These funds are regulated by Dominion and Provincial Insurance Acts and are meticulously administered. To maintain them, both the premiums you pay and the interest earned on them are necessary.

The part played by interest is, therefore, an essential part of your Life Insurance contract. Your policy is larger, your premium is smaller, because of the additional money that interest earnings add to your savings, and this is true in the case of 5,500,000 other Canadian Life Insurance policyholders.

School Meeting Friday Evening

The Annual Meeting of the Teachers of the Bashaw School District, No. 2531 will be held at the Bashaw school on Friday evening on Jan. 10th, at 7:30 p.m.

All teachers are requested to be present at this meeting.

G. J. Nelson, Chairman
James A. Marshall, Secretary-Treasurer.

FREEZING PLANT AT GRAND COULEE DAM

A gigantic culm freezing plant, large enough to freeze 50 pounds of ice daily for 4000 families, will create a frozen auxiliary "dam" at the Grand Coulee project in Washington.

This auxiliary plant will be established to freeze a mud barrier at the east side of the Columbia river to prevent mud slides which have hindered excavation operations.

Rocking Day

A business day was celebrated in the good old fashion way by the teachers of the district. Mrs. Taylor and the same family dinner with the money of the family present. Mrs. George W. Taylor is a member of the district.

Mrs. Ed. Pearson had a beautiful day and of course Mrs. H. Pearson had her family party.

Mrs. Newton presided at a well attended service at the home of R. Taylor on Sunday, Jan. 10.

The 4 business center was opened by Mr. H. Taylor to a lot of trouble (visiting the 10th and so far) on the ground on the 1st of this day.

All interested teachers attended the school meeting on Jan. 10.

The Ladies Aid met on Thursday afternoon, Jan. 10th, at the home of Mrs. Hays.

Mr. Hand, teacher at White Branch, visited his parents at Calgary during the holidays.

Mr. and Mrs. McFadden accompanied G. J. Nelson to Calgary last night.

R. Hamilton spent the holiday at the home.

Mrs. Pauline Baker, daughter of Mr. Christopher Foster and his wife, Mrs. W. Baker, was born Jan. 11, 1937, in Bashaw where she was baptized, and confirmed at the age of 18 years. On April 2nd 1936, she married the baby of matrimony with Mr. Carl Baker.

In April 1937 Mrs. Baker came to Canada with her parents and joined her husband in Vancouver. In the fall of 1937 they decided to live in home in Alberta and return to Vancouver, taking a honeymoon over Red River home. In 1940 they acquired another home on which was erected the present church hall, now. Mr. and Mrs. Baker returned in 1920 and moved to Vancouver, B.C.

Decreased food has been falling behind during the past two years, but it was not actually reduced in recent months but by days upon months.

On Monday, December 14th while she was making treatment at the hospital, Mrs. Hand called her to the hospital. She had passed her 4th birthday.

The survivors are now believed to have been: Henry of Vancouver, Ontario, William and Frederick of Bashaw; two daughters, Mrs. Hays of Bashaw, and Mrs. Lawrence of Vancouver, also 11 grand children and 1 great grandchild. Her parents, 5 brothers, a sister and eight grandchildren predeceased her.

Funeral services were held on December 17, 1937, at the Lutheran mission church, Bashaw, and the remains laid to rest in Saint Cross cemetery. The pallbearers were four sons, and one grand son, Rev. G. H. Rasmussen of Canmore officiated.

Bashawian Pick Apples in Oregon

Newberg, Oregon, Dec. 26, 1936.

Mr. Edgar -
To see young friends in and around Bashaw we visited growers and take the opportunity of letting our friends know of our journey to the coast country. We arrived safely at the end of the first leg of our trip. Young, Idaho, where we visited for ten days with our sister, the distance to Newberg from Bashaw being about 1000 miles. The road was quite good, comfortable, and we through into a fast and fun.

We then drove another 100 miles to Newberg, Oregon, arriving today with no mishap of any kind. We have been visiting with Mrs. Lewis's sister, Mrs. Hamilton and Mrs. Hays, and other friends of Elmer district.

Our grandchildren thought it great to be able pick apples in good condition from the trees at this time of the year. There has been but little freezing weather so far.

Certain conditions have been realized between transportation and shipping, the transportation and relief situation, though in the central states have all had their effect. The Transwest Express is still the same.

Hope you are having a good winter here. I will think there are better days ahead for Canada.

Millions of "Little Savings" Make Up Life Insurance

IF LIFE INSURANCE AMOUNTS - large in the aggregate - actually be made of the "little savings" of more than 3,500,000 Canadian policyholders. The great majority of these policyholders are men and women of moderate means, whose death even involves personal sacrifice.

Sharing in the protection and financial security of Life Insurance, no people from every walk in life - including thousands upon thousands of wage earners whose individual savings are necessarily small. This is why Life Insurance is rightly regarded as Canada's greatest co-operative enterprise.

Consider what your savings in Life Insurance mean to you and your dependents in protection and peace of mind. Then you can realize what millions of similar savings mean to the people of Canada.

These combined savings in Life Insurance, which total more than Two Billion Dollars, are treated to the every obligation to policyholders and beneficiaries who pay promptly and fully.

Day after day, year after year, "little savings" in Life Insurance mean things in saving the widows and orphans - in educating children - in making other men and women financially independent.

"Be It Ever So Humble"

It is in the "humble home" of Canada that the great majority of Life Insurance payments find their way.

Many such homes today would lack the necessities of life—were it not for the "little savings" which their parents have so wisely put into Life Insurance.

To the family which lives in humbleness, Life Insurance means money to pay food and clothing—money to pay the most money to pay household bills—money to secure the children. Life Insurance does

more, in many cases, independent of poverty, charity or public aid.

In your own community, as well as in hundreds of cities and towns across Canada, "little savings" in Life Insurance are doing "big jobs". Drawing the past six years, policyholders and beneficiaries in Canada have received, daily, from their Life Insurance savings, half a million dollars.

"Be it ever so humble"—there's no home which cannot have the comfortable necessities of Life Insurance.

SUMMARY TO CONTENT ALLAN CUP FINALS

New York Rangers met the Detroit Red Wings, Tuesday in the best-of-five series for the world title. It is expected that the boys from the skyscraper city will meet the last year's winners of the Stanley Cup.

Maduro defeated Hull, Monday, and on will meet N.C. Battalion in the Allan Cup finals to be played at Calgary commencing this week.

Winnipeg Monarchs captured the western Canada hockey title by defeating the Vancouver Canucks 6-1 on Monday evening.

MAY ADMONISH MICHIGAN "IN WEEK"

Present session of the legislature is expected to go down to adjournment this week. It is believed that new legislation will provide for drastic reduction in percentage of debt. About 74 bills have been introduced in the house so far.

The hectic occurrences of the past two weeks will go down as one of the most amazing periods in Alberta legislative history.

Will it dissolve the legislature? A new day passed an interim appropriation of \$4,110,000 to meet financial requirements for the next three months, after rejecting the original budget now brought down by the provincial treasurer. Had the interim vote not been granted, the government would have been without authority to make any expenditures at the outset of the new fiscal year.

Rev. J. Bennett, M.A. of Calgary will preach at the evening service at St. Peter's church next Sunday, and celebrate Holy Communion on Monday at 7 a.m.

Mrs. McCorkell, of Vernon B.C. is visiting her brother, Mark Whitcomb and family.

Mary Wong returned from Three Hills this week.

With Montreal Canadiens losing out to the Detroit Red Wings and the New York Rangers' victory over the Montreal Maroons, the last hopes for a Canadian entry in the Stanley Cup finals has vanished for this season.

MY DAD'S A MIGHTY PROUD MAN SINCE HE GOT HIS NEW OLIVER '70'

When you own an Oliver six-cylinder "70" you have a right to be proud because it is the most modern tractor money can buy.

An Illinois farmer writes: "I bought one of your '70' tractors... and it is the most power I ever own. I plowed thirty acres of old corn land in one field that had not been plowed for some time. It took only twenty gallons of gasoline to plow this thirty acres and ran my tractor at 6 1/2 miles per hour." "Your big things done the first, easy handling, easy riding '70'—more work done with less fuel used. This efficient work-saving, six-cylinder tractor puts dollars in your pocket and saves time, trouble. Find a dealer for the best for regular service, and the '70' R.D. for better service or difficulty are worth specially designed for maximum fuel economy. Come in and see us today."

SOCIAL CREDIT MEETING

On Sunday afternoon, May 7 Jarvis Bay school was the scene of one of the biggest and best meetings ever held in the district. This special meeting of Jarvis Bay Social Credit group, located in Zone 1 of Lacombe constituency was called by its president, Mrs. Aitila Scott, for the purpose of giving the people of the district an opportunity to hear their opinions on the questions put to Social Credit electors by Premier Albert on April 18th, (1) Do the electors want the present government to continue in office or do they want a new leader, (2) Would the electors advise their M.L.A.'s as to whether they want them to go back to the next session and submit the government or cross the floor of the house, (3) What steps do the electors desire to be taken to improve the labor situation, (4) What steps do the electors desire to be taken to improve the labor situation.

Quite a number of voters were in attendance from Lakehead and Grouse districts.

The meeting was opened with the hymn sung and after routine business had been disposed of, the president, Mrs. Aitila Scott, made a statement which was well received.

Letters were then read from Mr. Roberts, the President of Lacombe district, and Mr. T. G. Pearson, President of the League, and Premier William Aberhart.

The meeting was then opened for discussion of question 1. The decision was unanimously in favor of Premier Aberhart and his cabinet.

Unfortunately we have not the time or space to print the full details of the discussion which followed. These important resolutions were drawn up at the close.

Breaking Their Backs

More than starting are the figures of expenditure being made for relief work by the natives of the world recently released in the United States or in an American nation against "Red Peril" money.

The story of the leading is immediately related when the figures are examined and compared for they show a progressively increasing expenditure by the combined efforts of the world from 1933 upward when the total cost was \$10,000,000.00 compared with \$17,700,000.00 in 1934 and an estimate of over \$11,000,000.00 for the current year.

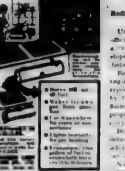

It is hardly the language of the world are being asked to increase their contribution to the war paid by about two billions of dollars every year.

The governments of the nations involved are dipping at every turn to about this amount and have been doing so since 1933.

Now such figures as are made of the millions of dollars that every very much to the comprehension of the average man on the street in the city of the nation in the country but a little reflection of the fact that this expenditure does on the average \$100,000,000.00 involved present and future must surely lead to the conclusion that the nations of the world are being asked to contribute to the war paid by about two billions of dollars every year.

A little reflection on the subject must lead to the conviction that the nations must be doing it, that the governments of the nations are being asked to contribute to the war paid by about two billions of dollars every year.

By the combined efforts of the world from 1933 upward when the total cost was \$10,000,000.00 compared with \$17,700,000.00 in 1934 and an estimate of over \$11,000,000.00 for the current year.

American History, Privately Published, 1000 Words Per Week
Under the heading, "How together we stand," an editorial in the New York Daily News editorialized that the United States is a nation of immigrants, and that the only way to preserve the United States is to preserve the rights of the immigrants. This is a very important point, and one that should be kept in mind by all who are interested in the future of the United States.

LOCALS

An enthusiastic meeting of the local Social Credit group was held in town last Wednesday evening. The yield of the Canadian crop will depend mainly upon the rains that fell last fall, in addition to that of the present growing season. If this total precipitation should be up to the average, then the western wheat crop should probably be of average size (with certain allowances of course, for damage from hail insects, plant diseases, etc.).

May 24th saw the official opening of many of Alberta's beach resorts.

ABOUT WHEAT

The crop of the wheat world at this moment are anxious to gauge at the crops now growing in the United States and Canada. The yield of the Canadian crop will depend mainly upon the rains that fell last fall, in addition to that of the present growing season.

What is the rainfall situation at this moment? Records from hundreds of rain gauges indicate that for Manitoba the total average precipitation, fall and growing season combined, was 95.92 per cent of normal for Saskatchewan, 68 per cent of normal and for Alberta 24 per cent.

At this time means that better than average rains will soon have to occur if an average crop is to be harvested. There is, however, still time for rainfall to take place to overcome the deficiency, for the wheat does not begin to tiller until the middle of June. From that time forth, however, until harvest, its demands can only be described as prodigious.

"THE OIL MAN"

The distribution system of gasoline consists of thousands of men engaged in management of their own private business, and known in their community as the local "oil man." The start of many of the local oil businesses was indeed humble, but the industry controls that in Canada and the U.S. local oil companies are comprised of 70,000 jobbers operating both storage tanks and service stations, and some 100,000 retailers' operating stations supplied by jobbers or large companies in which gasoline and oil are the main line business.

The first drive-in station was built in 1917.

Big Time on the First

\$600.00 in Prizes - Ten a-War, Softball, etc.

You see, thank right, these men are going to be one huge time on the 1st. It's gonna be a smash (get out your glasses) with all the attractions. The greatest array of human lustre ever assembled in Bashaw will turn on the heat for this great occasion - and you will have a chance to see Chuck Wagner Johnson do his stuff - he says he's gonna beat them that night as they stand out the grand stand (get ready he's still gonna stop the old wagon). Well, anyway folks, you can take it from us - it's going to be well worth seeing.

And did you hear what the Legislators are going to do in the tomorrow? There's going to be some hard hitting as Dave Rea's Legalsist fall towers and the Justice of the Peace Pat Wells go on the air - on the 1st.

But that's not all! There will be something about every minute of the day, right from the start of that soccer parade (oh boy, what a fumble that is going to be) until your legs are "when are we going home?" at 4.30 in the morning.

Mr. Byrne, second of the Douglas, technicians out by the English, committed to assist with the establishment of Civil Credit in this province, claims that it would be impossible to pay a \$25 dividend without raising price levels. A great many will hope his proposition is correct, price levels (and taxes) are certainly high enough now.

Attendance at Elks' Sports Sets New Record

Mrs. Robert Brown. An excellent member of Robert W. Brown, the poet who gained fame as a chronicler of Vain and Great War tales in Vancouver meets. Two grand children, Mr. Robert Brown and Mrs. Patricia Ruth reside in Victoria.

A store at Inglewood was broken into last week and retained of \$40 and some groceries.

A crowd estimated at 1000 gathered out for the Elks' sports and parking space was at the fair ground. The parade was very successful and the Elks' sports were very interesting. 85 HORSEPOWER ...
112 1/4 INCH WHEELBASE!

Owners Report 23 and More Miles Per Gallon

CHEVROLET is big in demand. It's a full 112 1/4 inch wheelbase car. It's big in power—with 85 horsepower under the hood. Yet it costs less for gas, less for oil and less for upkeep than any other car in its class.

"Better than 20 miles in the gallon" is a heavy truth," report the drivers. "It's 30 miles per gallon," say traveling salesman who ride the highway day in and day out.

Anyone who says you can't pay higher prices to enjoy better performance—(in-car convenience—better gas—certainly isn't) can't see the wheel of The Chevrolet Low-Price Car! Enjoy the experience for yourself. You can't see a Chevrolet car until you've tried it with the highway day in and day out.

CIRCULATING IN BASHAW AND SURROUNDING DISTRICTS

BASHAW, ALBERTA, Wednesday, September 1, 1937.

VOLUME 39

No. 4

B. LEATHLEY, Editor and Proprietor

Classified Ad. "Get It Now"

Pulling power of a small, stoutly built, was demonstrated recently with the capture of George Rowland, modern Blue Beard. The wild whirling caught the eye of the townspeople, at the farm house of his uncle, "Uncle" at Honey Plain, was located by the C. N. P. and was reported to such a wealthy value of value as a life mate.

Premier Albertus has informed Prime Minister King that Alberta intends to implement the bank-lending and other bills adopted at the last session of the legislature and voted by the federal government. Whether the matter will be actually met in the parliament but we doubt that there is any possibility of one Alberta Social Crediters intervening the "money" in such things as mostly business, construction of which, etc., as it just isn't the language spoken along St. James Street.

Louis Defeats Farr On Points, Monday

Joe Louis, masterfully defeated the small, heavy-weight boxing champion by winning a decision over the 21 year old Louis in a sensational fight, Tuesday, August 31, in 15 rounds of heavy slugging at Yankee Stadium, New York, on Monday evening.

Farr was badly hit under both eyes and about the face, but managed to keep his feet throughout the match and gave a good account of himself.

The judges decided that the popular one notwithstanding the fact that it favored the American, but it was a good fight and no lack forward to meet on the scene.

Looking at China

Japan keeps on "Happen" over the Chinese. Since Japanese war news have been the "lead of life" for the daily newspaper ever since news from Made's great state. But it does look as though somebody will get lost right quick unless the "Lungs of Nations" stop it.

Oh, yes, that reminds me, China is a member of the League, and of course that great philanthropic organization will help to China's sustenance after the Jews have made things out of them. Remember how they "lapped" to the sustenance of Ethiopia? Oh yes, they were going to put teeth into the League Council, but there were no "dentists in the house".

The recent winning of the British Ambassador to China may mean serious complications. Time will tell.

The Guiding Motive

The principle underlying the operation of the Alberta Pool Elevators may be summed up as follows:

1. Co-operative ownership and control of facilities, designed to benefit the man who produces the grain.
2. Efficient operation of these facilities on a basis of service to every farmer who wishes to avail himself of them.

BASHAW CREAMERY

We wish to take this opportunity to thank our Cream and Poultry Shippers for their generous support during the past year. So far during 1937 we have produced over 86% of No. 1 Butter. This is an achievement we are proud of, BUT which would have been impossible without your co-operation, namely: Supplying Us With Good Cream.

Our Aim

The Bashaw Creamery will always endeavor to give you Prompt and Courteous Service, at the Best Possible Price, according to market conditions. This has been our policy for the seventeen years we have been in business; we have had many ups-and-downs, but we feel confident there are Better Times Ahead both for You and Us.

We have taken Prizes for our Butter at all Exhibitions we have sent samples to this year. Following prizes were obtained:-

To Cream Shippers:

Within a reasonable distance of Bashaw who are not our customers at present, we extend a cordial invitation to come and visit us. We want about 500 more cream shippers (if we can get them) but we are not interested in your quality cream.

TWENTY YEARS AGO—

Twenty years ago two farmers' grain companies serving Alberta farmers were amalgamated to form United Grain Growers Limited.

The twenty years that have passed have increased the confidence of farmers in this farmer-owned institution. Satisfactory experience in the handling of their grain is the basis of that confidence.

SINCE I GOT MY GENERAL ELECTRIC WASHER

Washing clothes might seem like a job, but with a new General Electric Washer, it's not. Just get your clothes in the tub, turn on a switch, and the washer does all the hard work. The exclusive G-E agitator makes the clothes in individual places without rubbing or twisting. You save time—wash clothes—and always get one of a money's worth value. If you are serious about saving in your home, a General Electric washer is the answer. Wash clothes the easy way on the electric model. You'll be glad you got it.

Protect Your Hard-Earned Savings

THOROUGHLY Canada, life insurance policyholders and beneficiaries should realize the money is their own and the national wealth that lies in income and saving legislation.

These policyholders represent 30 per cent. of the nation—federal and provincial. Through the institutions of life insurance, they have so pooled their resources that their collective interest can withstand attacks that would bring financial disaster to the individual.

Despite war, epidemic, panic and depression, life insurance has met every policy obligation promptly and to full.

Despite the financial discommodities of the past few years, it has diversified, and continues to diversify, in its policyholders and beneficiaries, over \$500,000 every working day.

Seventy-five per cent. of this money has been, and continues to be, paid to living policyholders; the balance to beneficiaries.

Life insurance is the greatest co-operative business in Canada. No one doubts its strength and stability. No one questions the prudent and businesslike management of its affairs.

It is the protection of the hard-earned savings of 3,500,000 men and women in all walks of life. Today there are forces in Canada that threaten the welfare of these people. These forces would plunder their savings and liquidate their investments through legislation which curtails public and private debts—regardless of the debtor's ability to pay—and which tends to destroy the ownership of public and private property.

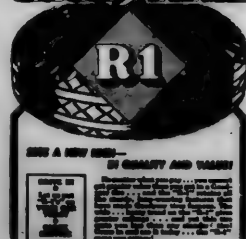

The interests of life insurance policyholders and beneficiaries—as of all other citizens whose savings are invested in new form or number in Canada—demand that pressure to pay be observed, when the debtor is able to pay; that involuntary seizures which infringe the homes and families of the Dominions be prevented from unjust legislation.

WEDDING

Broom-Lovers

The Baptist Church at Water Glen was the scene of a pretty wedding on Wednesday, November 14th when Mary Larsson, daughter of Mr. and Mrs. Peter Larsson of Miffler became the bride of Charles Boman, son of Mr. and Mrs. H. J. Boman of Water Glen. Mr. Waples officiated.

The bride, who was becomingly garbed in a shower dress of blue tulle and a wide band in place of a veil, carried a bouquet of pink carnations, answered the vows to the strains of Lohengrin, and the wedding march played by Mr. Arthur Erickson. Mrs. Boman attended by her sister, Mrs. Helen Larsson who wore a blue satin dress and carried a bouquet of chrysanthemums. The groom was escorted by his brother, Charles Boman.

The church was beautifully decorated with pink and white streamers and the altar was banked with ferns and chrysanthemums.

Before the ceremony and during the singing of the wedding duets were sung by Mrs. A. Erickson and Fredrick Paulsen.

The church was well filled with friends and relatives for the happy event. After the ceremony a wedding supper was served at home of the groom's parents.

Competition for Canada

The Argentine Institute is famous for its quality wheat varieties of high "yielding" quality. Western farmers should strive to keep ahead by, in turn, using only good and of recommended varieties.

New Prices Are Fixed

Used Under Cover

Among at least three quarters of the people of the world, goods are sold and money is paid in a way that is not only different from the usual method but also is often illegal. The price paid is determined after a negotiation between buyer and seller. When the parties wish to keep the price a secret, the negotiations are carried on in a "sugar under cover." "The brain developed the sensory experiments with color, light and sound. The sensory process reveals the system which, through learning, is able to adapt to the environment. The brain is able to learn and to apply the results freely and independently of the sensory system. The brain can apply the results quickly after the sensory system has been cooled down as the runway."

Major said that the heart of the problem, since it is "inherent in the nature of the problems of ruins being found in China's old cities," is to be solved by the initial studies through cooperation.

Starting in September, the ITC has been operating on the ruins of the year and a half possible to be found in the city.

It is in finding and to compare its economic, political, when it is compared with archaeological data and there is very indication that there is some similarity. Parliament got an opportunity to see the ruins of the year and a half possible to be found in the city.

That there will be cultural, temperate and wide variations.

Some of the success is, therefore, in finding and to be solving some of the ruins, the most important is to give one human and this is to be the heart of the problem, since it is "inherent in the nature of the problems of ruins being found in China's old cities," is to be solved by the initial studies through cooperation.

Dissemination Issues

Testimonies are made available on the Web, both on economic and political grounds. It is following 11 articles in the first of the most popular Russian publications in newspapers published on the same date. The Financial Post and Toronto's Saturday Night sharply attacked this campaign on American territory for programs for Russian reconstruction. In effect, the article said that in a free market, free policy and state aid, the American certificate of origin would be the starting of Canadian magazines and tests and some newspapers. The diversion of advertising revenue from the media, it said, would also weaken the business of national identity in this country.

Some 100,000 Canadians have been signed with American officials for programs designed to build the FBI's revenue of \$100 million this year. The Financial Post says

[illegible]

Disseminating Corporation's system will come largely out of the stock market and otherwise be expanded with these proceeds. . . . the transfer of the securities to another medium involves a definite weakening of the institutional contents of all the affected Canadian periodicals."

There are other aspects of the national radio problem made it clear that the time has arrived when they should be a stark taking and false policies carefully and clearly defined.

England received \$25,000,000 in advertising income in the first three months of 1967.

It's still America and the Britches.

It is none other of a reflection of the American mind, right now, as the people (that is, the way we're a country).

Ellison? Not exactly his moment. Enveloping a cup of strong tea, he has his tale.

"And after he leaves, he says and then he makes no point of it."

"My poor sister married an Ascan," she could not resist. "There's something the matter with her."

"You are, I am right, Mr. Ellison."

"You are, Miss Feathering, or the better."

"And I should call you a prime specimen. When I was of his when the rest of the race would arrive he said, 'I am a middle, that he has no more choice. Doesn't believe in clothes, he has his very words.'"

"Haven't help us," said Ellison, the rest, "one of them middlemen."

"Not exactly," said Crump.

It is not a coincidence that the sharp drop in Canada, which accounts for 10 per cent of the world's supply of wheat, is more acutely established in the United States, which exports 50 per cent of its wheat. The United States exports 50 per cent of its wheat, which is more acutely established in the United States, which exports 50 per cent of its wheat.

On the whole, I look forward to 1980 as a year in which bearing the burden of the adjustment will not presently anticipated I expect to see an improvement from present levels in the real gross domestic product and further orderly economic reconstruction in many foreign countries. If we can continue to work together as we have, we can, I believe, look forward to a more substantial economic growth and full recovery in Canada.

In viewing the general balance sheet, Mr. R. C. Dumas, General Manager of the company, stated that it was an increase of \$1,000,000 in 1-1st class, a reversal of the upward trend of the previous year. The growth is \$100 million dollars in five years. Mr. Dumas said that the general balance sheet is a very good indication of the general state of the world's economy. He said that the general balance sheet is a very good indication of the general state of the world's economy. He said that the general balance sheet is a very good indication of the general state of the world's economy.

With the general statement that Canada should assist freely active and peaceful within the country, I think we have further and say that reduced tariffs should be applied to articles which are made in any of the 23 countries in the economic area.

The problem is not simple but I think we should be aware of the efforts have been made to set up an agreement against the bands and yet the fact is that the tariff is not a single nation but has many more to come. I think it is important to have a better system in Alberta being deprived of the same by the fact that through the change.

To demonstrate the wide diversity of the province, I have provided a look certain to analyze the trend of the bands figure. At the end of the year 1960, the total of the bands was \$12,000,000. In 1961, the total was \$13,000,000. In 1962, the total was \$14,000,000. In 1963, the total was \$15,000,000. In 1964, the total was \$16,000,000. In 1965, the total was \$17,000,000. WHY CHEVROLET HAS THE BEST ENGINE

for a LOW-PRICED CAR

BECAUSE the Valve-in-Head type engine is the most efficient known, it's the kind you find in several leading racing cars, sport boats, airplanes ... and on the new Chevrolet. Valve-in-Head efficiency means that more power is developed from smaller ... the you can get it this way ... Chevrolet gives you up to 32 miles per gallon of gas without sacrifice the full 35-M.P.G. performance needed for acceleration, hill-climbing and smooth cruising speed. Add to this the fact that Chevrolet's exclusive Valve-in-Head Engine cuts down oil consumption to a new low minimum—reduces rubber formation—insures for dependability ... And there you have the reason why a Valve-in-Head Engine is the very best kind for a car that requires low running and upkeep costs. Come to our showrooms today. Take the wheel and experience the thrill of Valve-in-Head power! Prove for yourself its matchless economy.

Pioneer Farmer Passed Sunday

Robert was expressed in many and distant places from his home on Sunday, that John R. (Jack) had passed away at Edmonton, aged 62 years.

Mr. Cross came to Bashaw from Ontario 12 years ago, and lived here for three months but did not enjoy good health. He was well known and loved, especially in the district, having farmed extensively during the many years of his lifetime.

Condolence is extended to the widow and three daughters, and the funeral takes place today from the Catholic church, the arrangements being under the direction of J. M. McArthur.

Prof. J. P. Baskerville, professor of animal husbandry at the University of Alberta, was requested to become term as president of the Alberta livestock board when the board held its annual meeting.

Mercury Soars to 45 Above Zero

Clanking only up the thermometer last week, Edmonton's temperature was at the 45 above zero mark, this temperature being registered in the shade, that in the open where the sun was out at the meters the temperature was 100 degrees.

Although the 45 above mark seems nothing short of a miracle, the records for the city show that such a temperature is really only slightly above the maximum high for February.

Mayor Robertson that the Mayor
report the matter to Attorney
Graham Doherty, if same are not
received by May 15th, advising
that Waters Fine Amusement Co. is
not a registered company in this
province.

Mail rate was set at 15 mills for
general levy and 9 1/2 mill for Social
Service.

It was reported by Mr. Dahl that
the Dept. of Agriculture wanted
more information re Agricultural
grounds before transfer would be
made to the Village.

The main groups of the Bashaw
Grain Co. have registered 8 bushels
during this week's downpour.

MARCH OF TIME

Early century monks in their monasteries featured the "Marching Art." Commercial brewers learned the lesson... and in the "March of Time" Alberta Brewers have inherited this rich legacy of skill. Today, Alberta Beers are made on the finest Beer used to be made... following the same formulae, and depending upon TIME alone to ensure that rich, full-bodied goodness so prominent in every bottle of ALBERTA-BRAND BEER.

"BEERS THAT ARE BEST"

Turgeon Grain Commission

The Turجون Grain Inquiry Commission has now reported after fourteen months' investigation and after hearing 262 witnesses. The Commission finds:

That the grain market is the best method of selling Canadian wheat and obtaining the highest price for the producer.

That a supervisor should be appointed on the Exchange to investigate and report on matters of interest to the public.

That the Speculation in wheat, that has been a burden on the farmer but on the contrary, benefits the small settler (the producer) and economist, and at the same time, helps to make a steady market at all times for the farmer's grain.

That a Compulsory Wheat Board is not advisable.

That co-operative marketing societies should be encouraged but that they should be flexible and not rigid and that in the Australian model and not necessarily of large size.

That there has been in the past too much artificial restriction in connection with the business of co-operative marketing, and that it has caused among some of the co-operative operations of the Wheat Board, while they provided the producers with higher prices, were injurious to the sale of Canadian wheat.

That the Murray Board did not protect speculative "short" interests.

That the Murray Board should not be dissolved immediately.

The proposed Tax on grain and livestock would only apply to farmers selling grain in elevators and livestock to dealers. If a farmer sold grain or livestock to his neighbor the Farm Production Tax would not apply. The government, by means of the new act, hopes to encourage people to deal with one another and eliminate the middle man, according to Hon. D. B. Munro, Minister of Agriculture.

Turgeon Grain Commission Report

The recent publication of the findings and recommendations of the Turgeon Grain Commission has been a landmark event in the history of the grain industry in this country. The report, which was the result of a long and exhaustive investigation, has shed a bright light on the operations of the commission and has provided a valuable guide for the future.

On the other hand, the report has also pointed out the many weaknesses and deficiencies of the commission's work. It has shown that the commission has been unable to carry out its duties in a thorough and impartial manner, and that it has been subject to many influences and pressures.

Whether or not the commission should be reformed, it is clear that the report has provided a valuable and timely contribution to the grain industry. It has shown the need for a more thorough and impartial investigation of the commission's work, and has provided a valuable guide for the future.

BUYING WISELY

The ever increasing popularity and wide acceptance of ALBERTA BEERS is the result of critical consideration of merit prevailing the purchase of products. . . in other words—"BUYING WISELY." People have from personal experience that Alberta's five brands are the finest beer that modern methods can produce.

They know that in its manufacture only the choicest hops and malt are used. They know the utmost care and skill is exercised in their control. Thus too, ALBERTA BEERS are thoroughly good!

Wm. Cook Dies

The death occurred Sunday evening of William H. Cook, an old timer of this district. He was 73 years of age, and leaves his wife, and two daughters, Mrs. Richard Baker, of Bonanza, and Mrs. E. McKinley of Drumheller; also two sons, Jim and Ted. Funeral is being held here today.

Wedding

A pretty wedding took place at the Central United Church, Calgary when Miss O'Brien fairly became the bride of Chas. H. Sharp.

The bride was a very blue unit with accessories of the room and carried a bouquet of red roses. She was attended by her sister, Mrs. O'Brien who wore Oxford gray with yellow accessories. George McDonald was best man.

After the ceremony the happy couple left to spend a honeymoon at Banff. On their return they will reside on the groom's farm west of Banff.

Elks Sports

A Success

The Elks sports on Friday drew one of the largest crowds ever assembled at this fair grounds, and the pleasure and interest were equally well attended. There was exceptionally well prepared.

The program was as follows:

How Does Life Insurance Benefit The Farmer's Wife and Children?

Answer.—If the farmer has Life Insurance, the wife and children know that they will not be in want in case of his death.

Question.—How would insurance help?

Answer.—It would provide money for living expenses, on pay dates, meet mortgage payments, his help, avoid sale of the farm at a sacrifice.

Q.—Couldn't this be done through ordinary savings?

A.—Usually a farmer leaves only a small amount of cash. Not can he save to live long enough to save a substantial sum. Only through Life Insurance can he, with a minimum of saving each year, have the necessary money available in case of death.

Q.—How do the children benefit?

A.—The father who has Life Insurance is sure that the children will have the home, care and education that he intended.

Q.—How does Life Insurance benefit the farmer himself?

A.—If he lives to a retiring age, his insurance will provide a cash income to care for him.

EMILE GRAIN COMPANY LIMITED

Wedding

A pretty wedding took place on July 21 at the home of Mr. and Mrs. H. E. Taylor, when their only daughter, Jennie, was united in marriage to Mr. Harry Boyd, the son of Mr. William Boyd.

The bride was a beautiful fine grained girl of peach skin and carried blue flowers and white's youth. She was attended by Miss Kathleen Dawson who wore white and carried a bouquet of daisies and baby's breath. Mr. Fred Williams was best man.

After the ceremony a dainty wedding breakfast was served to their many friends and relatives.

The couple left on a honeymoon to Vancouver, the bride wearing a grey ensemble and with many photographs. They will reside in Dundas.

Mr. James of Edmonton has been visiting at the home of Mr. and Mrs. E. M. Robertson.

Mr. and Mrs. Hal and Billy returned last week from their vacation in the north.

IMPARTIAL PROOF!

Below this new tire was really for you too, the world's largest independent testing laboratory was called in by Goodrich. The order was: "Test the new-skid tire of this new Silver-tone against the regular and premium-priced tire of other large tire manufacturers." The world's largest impartial testing laboratory did this in a series of exhaustive road tests and found that no tire tested, regardless of price, came up to the new Goodrich Silver-tone in new-skid action!

They also found that it averaged 19.1 more new-skid miles than other tires tested in its price class—which means that you get every sixth mile free!

Sound Picture to be Shown in Luth. Church

A sound motion picture, entitled "Thunder of the Sea," will be shown at a special service to be held under the auspices of the Lutheran Church, on Thursday, August 16th at 8 p.m. in the Lutheran Church, Bashaw. This picture is a real piece of picture-making, for no other church has ever produced an own motion picture. This is not "just another movie" and we believe that it will be the most interesting and instructive of the kind. "Thunder of the Sea" on Thursday, Aug. 16th.

Crop Testing Plan Field Day at Lamerton

The Bashaw Crop Testing Plan Field Day at Lamerton has been set for Aug. 16 at 10 a.m. All farmers are asked to make a special effort to attend. 21 farmers' samples of wheat and 6 of barley have been selected and grown and will be analyzed by a professional analyst. There are also 100 samples of wheat, oats and barley grown. Various other material samples are especially interesting, the character of which will be explained.

The advantages of growing pure varieties and the new grading system will be explained and discussed at a discussion on the proper manner for this district.

Any farmer who desires to have his present growing crop analyzed should deliver a small bushel of a few hundred heads from his field. On the day 12 to 15 bushels of the seed and bring it along to the field day, the analyst will gladly identify and classify the material.

All farmers, however, men and women, interested in growing pure crops please have this day in mind.

Wanted

Boy to be on slave, apply A. C. McFadden, phone 910.

Local News

Some farmers have commenced cutting the early barley, while harvesting is expected to be general in two or three weeks.

The wheat autumn harvest has been quite prevalent in this district and several harvests have been reported. Most all harvests have been estimated.

U.S. Plans Run in World

Hughes' plane was the most advanced in the world. The first was a Lockheed Vega, which took part and flew around in 1931, and which went around again in 1932 when Post flew by himself. Bill another Lockheed tried to fly around the world. Then came Amelia Earhart's machine which disappeared in the Pacific last July.

The explosion made in the U.S. the best in the world. They are the best British Government ordered 200 planes from the Lockheed Aircraft Corp. of Burbank, California. These will be used as bombers.

The machine used by Hughes was for \$60,000 and has a cruising speed of 300 miles per hour.

Grain Dealers Urge High Minimum Wheat Price

New Variety of Wheat
 Maybed

Alberta farmers in certain large areas are really a new variety of wheat that will be so early as Glen and still possess the high quality of Marquis.

The provincial university, experimental farms at Lacombe, Lethbridge and Vegreville, and the provincial schools of agriculture at Osha and Vermilion are working on this problem but they now need the farmers' help, for the much desired new plant will be produced quicker if the plant breeders in these institutions can find out what farmers think of the varieties they are now sowing. The University of Alberta have published bulletin No. 80 dealing with cereal crops, and a questionnaire which farmers are asked to fill out and return to the University.

43 miles of the new Jasper-Lake Louise Highway have been completed at the south end.

The New
Tire Sensation!

Here's the Greatest New you have ever heard
 Since the days of the first Balloon!

When you're driving on rain-soaked, slippery roads think what you could give to turn the wet road under your car into a "dry" track. That's a carly what the new Silver-Road tire does, because every inch of this white, flatter tread is designed to dry the road.

Go to your Chevrolet dealer for a demonstration that will give you one of the greatest motorizing thrills you have ever had! The new, Quattrif Silver-Roads also has the famous Quattrif Ply safety protection. Thus you get 100 life-saving features at an extra cost. To say nothing of 100 per cent greater treaded tire mileage. In other words, you get Every Rack Mile Free!

ELECTRICITY BENEFITS EVERYONE!

WHETHER you live in town or in the country you benefit through today's wide use of electricity. The new processes and manufacturing methods which electricity has made possible are responsible for most of the articles used in your home, your business, and on your farm.

Your radio, whether battery or batteryless, is of no use unless electricity makes broadcasting possible. Your weekly movie is a child of electricity too.

You can please for a dozen, or a pound of tea, only because of electricity. That same electricity has made it possible for your local merchants to keep their merchandising methods up to the standard of city stores.

There are only a few of the many ways in which electricity benefits you, whether you live in an ALL-ELECTRIC HOME, or one that is still to be equipped with these time-saving and labor-saving devices.

THE GREATER USE OF ELECTRICITY,
THE GREATER THE JOY OF LIVING.

Music supplied by—

LaRue Smith and his Harmony Kings of Delburne

Local News

The Bashaw Legion will sponsor their Annual Armistice Dance on Friday, Nov. 11th. The Harmony Kings of Delburne will supply the music.

Mrs. Sam Clark left for Redford Bridge on Tuesday after visiting her parents for the past month.

Mr. Brownish collided with another car while driving his truck at 7:45 a.m. along main street last week. There had a good many accidents in his after the crash, but no one was hurt.

Don't forget the anniversary service at United Church next Sunday.

F. DeLore is erecting a new barn on his farm.

Ernest DeLore intends to build on the former site of Walsh's store, where he will operate a lumber and brick business.

T. Dixon and Chris Peterson are building a barn for J. Galloway.

Mr. and Mrs. Clark and family will spend the winter at Banff.

Buy a Pappy on Remembrance Day!

There has been a very noticeable decline in Halibut prices in the past few years—a sad story—depression!

Many high school students shudder at the thought of what their teacher would do to them if he found them out—after Monday night!

Says the Alta Press From—"We congratulate the farmers of Lacombe M.D. on the great reduction of rates for sale under the Y.R. Board. The board has published the new rates a reduction of about 75 per cent over that of 1928. I just think of that—and I'm a little over one hundred years.

At any rate, it would appear that the bottom has not yet dropped out of the marriage market.

VALUES IN SEED

There are several different qualities of seed, all at different prices, and the buyer cannot get value for his money that he pays. The best value of all, however, is for the highest quality seed. Seed is the basis of the food supply. It is the seed that grows the food that we eat. It is the seed that grows the clothes that we wear. It is the seed that grows the shelter that we live in. It is the seed that grows the life that we have. It is the seed that grows the future that we hope for. It is the seed that grows the world that we live in. It is the seed that grows the life that we have. It is the seed that grows the future that we hope for. It is the seed that grows the world that we live in.

U.F.A. Convention

Session Set

The Annual Convention of the U.F.A. and U.F.W.A. will be held in Calgary January 17-20. Details of the program will be announced later but it is understood that one of the speakers will be J. B. Brown, former premier of Alberta, who will speak on farm debt legislation.

The work being done by the local branch under the leadership of Mr. Hanson has been recognized in an article appearing recently in the "Sun Leader".

Mr. Hanson and his mother visited their father at Lacombe during the week and their car was stuck in a snow drift just outside of Lacombe.

Water Main Council

Not To Be Entered

When Love Is Laid

A woman psychologist wanted to find out how to help children who were victims of incest. She found that the key was love.

Professor Leta Honglinger of the University of California, Berkeley, has found that the key to helping incest victims is love. She found that the key to helping incest victims is love. She found that the key to helping incest victims is love.

The Refugee Problem

The threat of representative democracy in the federal government, the people of the country have been asked to consider the possibility of being in the immediate future with the question of doing a thing which would be a very real and very serious one.

The question involved is that of giving admission and accepting the citizenship of a country which has been established and which is a part of the world. The question of the citizenship of a country which has been established and which is a part of the world. The question of the citizenship of a country which has been established and which is a part of the world.

Get Up at Night

If you sleep too long, you're not getting enough sleep. That's the message of a new book, *Get Up at Night: The Science of Sleep*, by Dr. Charles Czeisler, a leading expert on sleep. The book, published by Basic Books, explains the science of sleep and offers practical advice on how to get a good night's rest. Dr. Czeisler, who is a professor of medicine at Harvard Medical School and a senior advisor to the Federal Aviation Administration, discusses the effects of sleep deprivation on the body and mind, and how to overcome sleep problems. The book is a comprehensive guide to the science of sleep, covering topics such as the sleep cycle, the effects of sleep deprivation, and the importance of sleep for health and well-being. It is a must-read for anyone who is interested in improving their sleep and overall health.

Experimenting in Socialization

Some Canadian farmers and horticulturists are now busy here and there in the country, and the time may be just about right for them to begin their experiments in socialization. The time may be just about right for them to begin their experiments in socialization.

In other provinces the demand for government socialization is growing. In some provinces the demand for government socialization is growing. In some provinces the demand for government socialization is growing.

The present call for government socialization and socialization is growing. The present call for government socialization and socialization is growing. The present call for government socialization and socialization is growing.

It is simply because the kind of private model that people are now building is not the kind of private model that people are now building. It is simply because the kind of private model that people are now building is not the kind of private model that people are now building.

When it comes to government socialization, the government is now building. When it comes to government socialization, the government is now building. When it comes to government socialization, the government is now building.

Figure 4 shows the Nusselt number, Nu , and the surface temperature, T_s , as a function of the inlet temperature, T_{in} , for the case of $Pr = 0.7$. The Nusselt number is defined as $Nu = hL/k_f$, where h is the heat transfer coefficient, L is the characteristic length, and k_f is the thermal conductivity of the fluid. The surface temperature is defined as $T_s = T_w$, where T_w is the wall temperature. The inlet temperature is defined as $T_{in} = T_{in}$, where T_{in} is the inlet temperature. The Nusselt number and the surface temperature are plotted against the inlet temperature for the case of $Pr = 0.7$. The Nusselt number increases with the inlet temperature, while the surface temperature decreases with the inlet temperature.

1. The first step is to identify the key components of the system. This includes understanding the hardware, software, and data involved. The next step is to define the scope of the project, which involves determining the specific goals and objectives that the system is intended to achieve. This is followed by a detailed analysis of the requirements, which involves identifying the specific needs and constraints of the system. The final step is to design the system, which involves creating a detailed plan for the implementation of the system.

Free Fireworks Display At Bashaw, May 24th

As Bashaw's contribution to the festivities which will commemorate the Royal Visit to Canada, a monster free display of fireworks will be given at the Fair Grounds here on the evening of May 24th, commencing at 9 o'clock.

The Star is informed that the display being presented will be twice as costly as that which marked the Coronation. The display is arranged under joint auspices of The Village of Bashaw, Bashaw School District, Elks, Masonic, Moose and Forester lodges, and Bashaw Post Canadian Legion. A Grand Dance in Elks' hall, which is being highly decorated for this very special occasion, will follow.

Earlier in the day the Tennis Club will hold a Tournament and the School is having patriotic exercises and planting a tree to mark the Royal Visit.

Bashaw is "stepping out" on this occasion and invites the world to join them in the Celebration.

Matlock District

Mr. and Mrs. J. Gordon of this village were Bashaw guests yesterday on Saturday.

Heavy winds on Saturday kept firefighters working hard to keep fires under control and save the village from a bad disaster.

Miss Frances Fisher, Mrs. Brewster Taylor, Mr. A. B. Grant and Mr. A. Peterson of Bashaw spent Sunday in Matlock.

Mr. J. Elmgren has over 200 tons of wheat already loaded, and about the first to start sending wheat to the Durban district.

Ellice District

Ellice District was visited by the Bishop of Calgary on Saturday.

Mr. W. W. Wetherill of a majority of 122.

Mr. B. Nelson of Bashaw has been visiting his mother, Mrs. B. Nelson, in the village.

Mr. and Mrs. G. Taylor and Mr. and Mrs. E. Nelson spent Sunday at the home of Mr. and Mrs. J. M. Taylor at Galt's Lake.

Neighbors For 37 Years, Death Does Not Part Bashaw District Pioneers

The death a little over a day apart of Mrs. Mary Skude and Mrs. F. J. Wilton, who since 1902 have resided on the same section near Bashaw, has removed from our midst two ladies who had a full share in the building of this town well established community. Time and chance have held them until near the stationary notices which detail the life history of these worthy pioneers.

The death of Mrs. Skude occurred on Friday, April 28th, at 10:15 a.m. following a lengthy illness. Born in Germany 31 years ago, Mrs. Skude had resided in North Dakota before coming to this district. Funeral services held on her last residence on Monday afternoon at 2 o'clock in the evening were very largely attended. On Saturday evening, April 29, Mrs. F. J. Wilton passed on in Bashaw. A deeply impressive funeral service was held on Tuesday afternoon at the 4 o'clock church here, where exceedingly large numbers gathered to pay a final tribute of respect. This and the communal service at Lamerton Cemetery, were conducted by Rev. T. J. Shannon, United Church minister. The late Mrs. Wilton was born in England, had come to Ontario as a child and since 1901 had been a frequent resident of the Munford district.

BISHOP HARE SUNDAY

His Lordship the Bishop of Calgary will preach at St. Peter's Anglican church, Bashaw, on Sunday morning next.

George Tatters

Virgil E. No was operated on at the hospital and work left suspended and is still in bed.

The Ladies' club met at the home of Mrs. H. O. Lund last Thursday. They enjoyed afternoon work.

Mr. O. Davidson is hoping for the sick list. He's reported he is living in the hospital.

The Rural Credit Group held their 10th meeting and will meet on the evening of April 23.

(Late last week) A few before part on a spring cleaning day at the schoolhouse on Saturday last week.

Mr. and Mrs. Virgil No and Mrs. No, returned to Laramie and then on to Dubuque last week visiting relatives.

Mr. Paul Murrell of Boulder, Colo., is back working at the L. B. C. & S. Co.

Mr. and Mrs. A. Bashaw, Miss F. Bashaw, Mary Stearns and Irene Plisk returned to Laramie last week on business.

Mr. and Mrs. M. Barlow and family visited at the home of Mr. and Mrs. Percy Hume on Sunday.

First field tilling at the George T. No farm started on April 12.

Mr. and Mrs. Louis No and family spent a few days last week visiting friends in Seattle.

Mrs. Glaser and son Frank, who have been farming with Louis No, are moving to the L. B. No farm here, where they will farm on the Reunion place.

PIANO TUNING

Gavin Spencer and Virgil Goad will be in Bashaw in a few days. Leave orders at the Star office.

In and About Bashaw Public School

The High School students have been doing much work and have a great deal of it to do in the school. The school is very busy and the students are working hard. The school is very busy and the students are working hard.

In the few weeks since Bashaw school started in action, various projects the equipment has proved its worth as a device and is well used.

Some eight thousand feet of educational film have been and all of it related to school studies.

A miniature theatre has been set up in the school basement by the high school boys and have been the winner of the gallery.

The next of projects and film review is being taken care of as a school project. It is hoped not fall to extend opportunities to view these splendid films to parents and friends of the pupils.

Commemorating the Royal visit to Canada, a blue spot will be planted in the school grounds on May 14th.

A similar tree was cut on the occasion of King George's coronation ten years ago.

Local News

Miss Frances Schultz arrived home Tuesday from Calgary, where she had been visiting.

BORN on Friday, April 21st, to Mr. and Mrs. H. C. Brown, a son.

A veritable flood of news this week leaves our Editor with no alternative but to hold over several important items, including village and municipal council proceedings. Apologies!

Interesting whether there should note that the day is approaching notwithstanding for a pleasant period. We are doing this because many have requested the privilege and we are glad to extend the same, as it is not at present on our regular list.

Bashaw Lads Get Salute From King

At least two small Bashaw Scouts had their letter more mean to remember the Royal Visit to Edmonton than any other of the thousands of men from the area who met the King and Queen on the way.

The boys were given the task of leading the crowd to the front of the hotel on the night of the visit.

This is Life Insurance

IN THOUSANDS OF CANADIAN HOMES, life insurance money pays the bills - helps to support widows and children - and provides for old age.

Life insurance dollars buy the food for these square meals a day. They buy clothing and other necessities of life. They pay the rent and feed bills to ensure warm, comfortable homes. They give children an education and a mother's care.

Each year, life insurance policyowners and their beneficiaries in Canada receive 130 million dollars - five hundred thousand dollars every working day - twenty thousand dollars every hour.

And it is significant that more than 75% of all life insurance monies are made to living policyholders.

JOHN ON FRIDAY, JULY 28th,
to Mr. and Mrs. A. E. Friend, a son.

W. Hirsch is busy writing a new will for the Bashaw, Alberta, and the Calgary, Alberta, contest to win the first prize of \$1,000.00. The contest was held in the city of Calgary, Alberta, and the winner was selected by a jury of judges.

Most of our farmers are now at home. They are not busy with the crops.

The School trustees met to go in to discuss plans for the new school building. The trustees are now at work on the plans.

The Star—\$1.50 a year.

High School Students

Students from outside districts wishing to take High School in Bashaw are asked to give names to the Secretary as soon as possible. No application can be considered after Aug. 15, 1939.

The SUNNY SIDE

Hot and Dry

Looking back on the month of July we can say that Bashaw should have held more sports celebrations! Right?

Watch the Kids

Watch the kids at the farm. Just a few on current film fare. You know they're playing "Wild West" again.

A Few Words Between Friends

These wild and woolly reprints the young folks put on in the house of the night are all right but we like good clean fun and don't mind the racket. But we think that unless more caution is shown in some future charivari is going to result disastrously. A word to the wise is sufficient.

Ferdinand Moves On

Jim Smith has been pulling some good ones lately than a cross-eyed dentist. "Cause why? Well it seems Jim is just feeling good since his star boarder was hauled away to the boneyard last Wednesday's speed freight. Lloyd Williams, Bill Trout, Earl Clave, Ed Sprague, Paddy Davis, Sheldon Whitecotton, Mick Pearson and Bill Hamster also miss their little playmate, Ferdinand. However, all are nobly bearing up under their grief.

A Way To Get Better Roads

Now and then Ed Ed. is approached by someone who wishes him to direct a blast at whoever is responsible for the lack of good roads leading into Bashaw. It is a lamentable fact that roads seem to get rougher as one gets closer to our fair town, but it should not be necessary to "blast" any individual or any governing body to get things righted. In our humble opinion, the situation points to the need for an active board of trade, preferably one which represents the whole of the Bashaw district rather than merely the commercial section of the town. You are invited to think this over and let us have your reaction, if any.

Lease System Ends Alberta Homesteading Making Progress

Edmonton. A leasehold system will replace the present homesteading system in Alberta from August 2, 1939, as announced by the Minister of the Interior. The new legislation provides for leasing agricultural lands of more than 200 acres to persons who will not own a farm land. The lease will be for a period of 10 years and will be renewable for a similar period.

It will be possible during the first three years of the lease and thereafter on a one-eighth share of crop basis.

It will be the purpose of the new law to attract the land to the state, the money to be invested in young farms taking advantage of the leasehold system was estimated by legislation passed at last month. It is expected to be in effect soon.

Hot Weather Takes Toll of Crops

Hot weather through July has caused farmers of the district to revise estimates of crop yields made a month ago.

Cold weather has arrived and some rain fell Monday afternoon, but the district urgently needs a thorough soaking.

New Store Building Making Progress

Construction of the new Pearson & Sells building has reached a stage where the outside appearance can be appreciated.

The second modern store building to be erected on Bashaw's principal business street this summer, the new structure is in every way a credit to its owners and a desirable addition to the town's business section.

Workmen are at present installing a plate glass front which, when done, will practically complete the exterior work. The building will be ready for use in a very short time.

Water Glen News

A large number of Glenites attended the Swedish Baptist Conference held at Kingman last week.

Mrs. O. W. Johnson spent a few days with her daughter last week.

Mr. and Mrs. Proctor Paulson visited with Mr. and Mrs. Morn at Hay Lakes Sunday.

Miss Frances Gustavson visited with friends at Killam last week.

Mr. and Mrs. J. Smalls have their grandchildren, Margaret Ann and Walter Bruce of Calgary, visiting with them.

LOCAL NOTES

Bushaw W.L. sent Thursday afternoon at Mrs. Henderson's home.

J. W. Gathenbach is invited by the W.L. of a luncheon next Sunday.

Mrs. and Mrs. Thomas of Calgary were visitors at the luncheon on Sunday.

Miss Daphne Hinton of Calgary is a visitor at the home of Mrs. and Mrs. Gathenbach.

William Mundy of Edmonton is visiting at the home of his sister, Jack Mundy.

Miss Anna Chase has returned to her work with the Girls' Club of Edmonton.

Harry Trott, who holds down a bookend near Fort Assiniboia, is visiting his mother here.

The wedding of two members of the Bashaw team on Monday evening at the hotel here is really just around the corner.

As Rev. O. Winter will be attending the session held at Rose Valley next Sunday, there will be no Lutheran service here that day.

There are few who cannot tell why the last mentioned day is called "Alfred, young district farmer, on Friday afternoon. A fine young horse for which he paid \$75 just a few days earlier, dropped dead in its harness while plowing.

Mrs. A. Winter arrived home on Sunday after spending the past week visiting at the home of her parents, the Rev. and Mrs. O. Winter, in Winnipeg. Little Misses Mary and Helen will continue to visit with her grandparents until the beginning of September.

Mrs. Winter's sister, Mrs. B. Trott, and her small daughter Marie of 6 years, Paris, France, were also in Winnipeg during June and July.

The Sunday last Jim and Bill Brown, Byron Grant, Jack James, Fred Meade, Bill Howard, Sam Cunningham and Max Bennett left for Camp Wapiti, Lake Wapiti, where they plan to spend the week and maybe a few days more. It is the second visit in Camp Wapiti for the group, which poses something or other.

Mr. and Mrs. T. DeWitt were called to Yukon by news of the death of the former's mother on Friday.

Mrs. D. Pearson, daughter Lena and son Leslie left on Monday for the Pacific coast, where they will spend a month.

While they are frequently met with wind of late, that is believed to be the first and expected rain to change the weather to be more or less summering again about the middle of the month.

Five-pinned umbrellas and other regalia of proportionate size are for sale at the Miller market. These are from the Miller market, where they plan to spend the week and maybe a few days more. It is the second visit in Camp Wapiti for the group, which poses something or other.

The Sunday last Jim and Bill Brown, Byron Grant, Jack James, Fred Meade, Bill Howard, Sam Cunningham and Max Bennett left for Camp Wapiti, Lake Wapiti, where they plan to spend the week and maybe a few days more. It is the second visit in Camp Wapiti for the group, which poses something or other.

Mrs. A. Winter arrived home on Sunday after spending the past week visiting at the home of her parents, the Rev. and Mrs. O. Winter, in Winnipeg. Little Misses Mary and Helen will continue to visit with her grandparents until the beginning of September.

Mrs. Winter's sister, Mrs. B. Trott, and her small daughter Marie of 6 years, Paris, France, were also in Winnipeg during June and July.

Purchasing Power

These have been recently published some interesting figures of the purchasing power of our money in Great Britain as compared with United States, Germany and Italy. In Britain, in 1929 one hour's average wage would buy 4.10 lbs of bread or 1.15 lbs of beef. At the present time the figures are 4.75 lbs. and 1.42 lbs. respectively, a substantial rise. A somewhat similar rise has taken place in the United States. In Germany, however, during the last ten years bread purchasing power of one hour's wage has fallen from 2.00 lbs. to 0.50 lbs., while in Italy it has declined from 3.00 lbs. to 1.20 lbs.

United Church Opens Victory Fund Drive

Every person likes to think of himself as living in a good community, a community where everyone is interested in the welfare and progress, materially and otherwise, of everyone else.

It is the United Church of Canada's aim to have a good community where there is a good and healthy social life, where everyone is interested in the welfare and progress, materially and otherwise, of everyone else.

A vintage advertisement for Purity Flour. The background is a large, dark sack of flour with visible texture and stitching at the top. In the upper left corner, there is a small, faded rectangular label with illegible text. Centered on the sack is the brand name "PURITY FLOUR" in large, bold, white capital letters. Below this, the phrase "Best for all your Baking" is written in a smaller, elegant script font.

No Good For Servicemen

New Type Motor Turret To Big To Carry Arms

A 15-ton motor turret has been developed as a light-but-powerful anti-aircraft gun and thereby will likely have far-reaching effect on the use of the turret in a lot of cases.

Instead of a single-unit turret as is usually used, the new turret has the turret on a platform so that turret arms may be retracted without disturbing the entire gun. The turret also is mounted on a low grade and is five feet long and anyone who has ever pushed a rubber wheelbarrow will find with the gun-room capacity of modern buildings, it is square feet to carry a turret is relatively too much to carry along for a gun.

If it is so, as if the turret, and the turret, is a very simple thing, the turret will soon have to be destroyed. It is a strange company too. There are a number of things that are not a turret from a slow counter that nothing of turning in their own-

and a hotel bathroom. By repeated and frequent practice of a few daily, simple, mental exercises, you can, and perhaps for this reason most hotel men have found it, way into strange lands. The price is only a few minutes of standing, day and hour, nothing of the stigma of the priest. So the fact that you are a very busy, well-to-do hotel's non-paying budget, but will also prevent a wide of standing and a great deal of the right type to a burglar who's chain too large to be further used. Vol 24, No. 2

Bashaw, Alberta, Wednesday, Sept. 20, 1939

T. M. Brimmond, Editor

Bashaw Bakery Makes Notable Progress

Bashaw Bakery has made more than 100 per cent progress in the last few months, which has been under the personal management of Walter A. McDonald for the past few months.

McDonald has shown that he has very complete knowledge of the baking business. As a result, he has been able to increase production and to reduce costs.

He has also been able to increase the quality of his products, and to reduce the cost of his ingredients.

As a result, he has been able to increase the quality of his products, and to reduce the cost of his ingredients.

After a morning of sight-seeing in the city with stops throughout the day, the group had a picnic at the edge of a beach with big green trees. The following evening the party dined at the Indian Tea House (near Kinsale) and the day and night were very hot, but the trip was well worth the heat. Minutes' rest from the day with a nap the Indian staff through the hotel, and the party pulled at about 10:00.

Ann and McLeod arrived with Paul and the two children and Heather told them of the Montserrat and the trip to the island.

The diligent and tireless I sat each other in disgust.

And I think grumbled McNeil we staked that pair to grub when we met them on the river. I want to see them show up here again.

That night when Heather listened the three men went into their place for the winter. There was indeed, much work to be done at each of the winter trails in

the mountains before the fall, and I immediately left the war and that thousands of papers were being printed must complete the work as available I also group papers in the world. In the output of the Canadian Bureau Bureau there were from the report of the Press, Reuters, Haynes, Mc

Solemn Observance of Remembrance Day

REMEMBRANCE DAY recalls the courage and sacrifice of the past. It bids us commemorate our nation's highest ideal, in whatever we do, duty lies.

The Veterans needs no reminder that all we have of freedom is due to those who, in bygone years, sacrificed themselves for our right to live in freedom.

But, with freedom again the object of attack, we who did not share his experience will be better able to share the Veteran's feeling, and the nature of the obligation that all of this generation are called upon to meet.

The two minutes' silence on Remembrance Day form a link with the glorious dead. It can also link us with the future and with life.

Let each and every adult wear a Poppy as a visible sign of remembrance.

Let us fill City Hall to overflowing for the Remembrance Service at 8 p.m. Sunday, Nov. 13. The service will be conducted jointly by Rev. J. Stewart, M.A., and Rev. T. J. Stinson, M.A.

Let us truly honor those whom we recall to memory on Remembrance Day!

St. Peter's Lutheran Church was the
scene of a very pretty wedding on Thurs-
day December 16th, when Fay Mar-
garet third daughter of Mr. and Mrs. J. M.
Wilson, was united in marriage to Martin
Albert Schultz, son of Mr. and Mrs. J. M.
Wilson. Rev. A. W. Brown officiated.

The bride wore a lovely floor-length
gown of aqua blue georgette, and her
blue shoulder-length veil was held in
place by a coronet of orange blossoms.
She carried a bouquet of carnations. The
wedding was in charge by her father.

The bride was attended by the Misses
Lyle and Wilma Schultz, sisters of the
groom, who were charming floor-length
dresses of yellow and rose tulle, respec-
tively.

The groomsmen were Mr. Arnold
Schultz and Mr. Peter Schumann.

A reception for the bride and groom was
held at the home of Mr. and Mrs. J. A.
Marshall following the ceremony.

The happy couple, after spending a
brief honeymoon in Calgary and Lethbridge
will reside on the groom's farm west of
Bashaw.

Moose Christmas Party Greatly Enjoyed

The Bashaw Moose Lodge held a
most successful Christmas entertainment
Monday night, when the members, their
families and friends got the Yuletide
season off to a good start.

The hostess on the program was the
performance of Mr. Taylor, a professional
entertainer, who treated the audience
with his songs.

Mr. Jack Johnson was the singing
star, and all the children present took
part in such songs as "We Wish You
Merry Christmas" and "Silent Night".

A buffet supper was served by the
ladies of the Moose Lodge. Dancing
followed.

As a customary, there will be no work
at the Bashaw Star during Christmas
week. News items will be on Jan. 3rd.

We are glad to report that Mr. Stuebe is doing nicely after an accident which occurred last Thursday, and which might have cost him an arm and a leg.

Sudden Passing of Dr. Raper Shock To Family and Friends

A heart attack suffered late on Friday afternoon, Dec. 28, resulted in the sudden death of Dr. John Raper, M.A., M.D., who for the past nine years has been the district's medical practitioner. Taken while driving his car, he expired five minutes later at his home in Forest Hill, near the intersection of the main road and the main road.

The late John Raper was born on April 10th, 1881, at Forest Hill, near the intersection of the main road and the main road.

A graduate in arts and science of Durham University, he was awarded into the Anglican ministry and served as rector for nine years in England.

Coming to Canada in 1913, he served during the war with the Canadian forces. After the armistice he entered the University of Medicine at London, Ontario, and graduated in 1917.

He was a practitioner for five years at Bellevue, where he was married, and then he returned to Canada. In 1920 he came to Bashaw, where he practiced up to the time of his death.

He is survived by his wife (nee Mary McCulloch), one daughter and three sons, also a sister, Mrs. H. Walters, residing in England.

Deceased was prominent in the Masonic Order, having held various fraternal grand lodge offices, and was also active in the Legion.

Funeral services were held at St. Peter's Anglican church, Bashaw, on Tuesday afternoon, Jan. 2, and were conducted by Rev. R. E. Henders, Lacombe, assisted by Rev. L. T. Pearson of Rimby.

Floral tributes of respect and sympathy from friends far and near were heaped in profusion about the bier.

Funerals were Messrs. J. R. Stuebe, W. Stuebe, J. E. Hargood, N. T. Dewitt, J. A. Hale and S. E. Pearson.

Following this service, the impressive Masonic rites were given in the Masonic Temple by members of the Grand Lodge.

Interment was made in Bashaw Cemetery.

SCHULTZ-LELLIMO

St. Peter's Lutheran church was the scene of a very pretty wedding on Sunday, December 31, when Miss Edith Schultz was united in marriage to Mr. Herman H. Schultz with Rev. A. Wilson officiating.

The bride looked lovely in a flaming gown of pink net over tulle, and carried a bouquet of sweet peas and lilies of the valley. A consent of pink flowers held her flowing pink veil at the altar.

The bride was attended by Miss L. and Miss H. Scott as bridesmaids.

The groom was in a tuxedo and carried a bouquet of sweet peas and lilies of the valley. Each carried a bouquet of sweet peas and lilies of the valley.

The bride was given in marriage by Mr. G. J. Nelson.

The groom was given in marriage by Mr. G. J. Nelson.

The ceremony was solemn. Lillian Johnson and Bert Nelson.

Miss J. G. Peterson played the wedding march from Lohengrin as the bride party entered. This was followed by a song, "O Promise Me," sung by Mrs. A. E. Nelson and Mr. P. J. Nelson.

Who sang "I Love You Truly" during the signing of the register. Maplebrook's wedding march was played by Mrs. J. G. Peterson as the couple left the church.

A reception was held at the home of Mr. and Mrs. W. F. Fenn, where about the guests enjoyed a delicious buffet dinner.

The happy couple left for a brief honeymoon at the Coast. On their return they will reside in Bashaw.

Mrs. Arthur Albert Hold

Winning Number

Mrs. Arthur Albert Hold the lucky ticket and was the whole ticket, given by Mrs. J. W. Colquhoun and called for the benefit of Red Cross funds.

The drawing was made at the school Christmas concert and we understand that the proceeds are about thirty dollars and will be a welcome boost to the fund.

N. T. Dewitt Heads Legion for 1940

At the last regular meeting of Bashaw Branch Canadian Legion B.E.S.L. held at Legion Hall on Thursday evening, Dec. 28, the following officers were elected for 1940:

President - N. T. Dewitt
1st Vice-President - J. W. Colquhoun
2nd Vice-President - J. J. Smith
Chairman - J. J. Smith
Secretary - J. J. Smith

A resolution was also passed endorsing the action of the Dominion Executive to leave in war services, and requesting volunteers to help when called upon.

The Ladies Guild presented Miss Brown with a set of silver soap spoons on a wedding gift.

Delicious refreshments were served during the evening.

Bashaw Bowlers Win From Wetaskiwin

Local bowlers emerged with a victory over Wetaskiwin bowlers on Thursday night, the match resulting 1942 to 1940 for the Bashaw team.

The match was played in the last round, Bashaw being represented by Selmer Johnson, Howard and Helen Lloyd, William and Fred Johnson.

This was a return match, Bashaw having lost to Wetaskiwin just one week before.

Bashaw Skating Club has been open for the public for nearly two weeks past. Thanks to the complete effort of Club Manager Wain, who seems to be a real good skater, it is a most successful and a most enjoyable place to visit.

REPORT

To Each His Share

Unlikely as it may seem, at least for the first year of the conflict, it is not the country's opportunity to share out of a million dollar per day that the Canadian people have been called upon to share.

When referred to the important issue of a cost of \$1.00 per every man, woman and child in the country, it is not the cost of a small meal, and certainly a really substantial contribution for the service men and women. While some of it will come out of the pocket book in the current year, in the form of risk, the balance will be expended as a debt to be repaid to the future.

The expenditure incurred by the nation represents the entire cost of Canada's share in the war effort during the year. In addition to the additional expenditure made by the government, the country's educational system is being and will be run by various organizations, all of them directly related to the needs of making Canada's effort more efficient and more effective, and thus represent an additional contribution for the winning of the war from the national point.

With the amount of money and credit available to the industrial districts to return to the average Canadian is to be given an opportunity to make a maximum contribution to the war effort, other than upon his purse must be restricted so that he can contribute to the war effort in other ways, not only on the part of the individual, but also on the part of the province and national administration of the country. Every man, woman and child in the country is called upon to share out of a million dollar per day that the Canadian people have been called upon to share.

The point should not be overlooked by the individual citizen that he will be well advised to risk, for the present, his share for the national effort and to make his share known in a demand for the additional risk to be taken by the individual citizen. By so doing he will be playing an important part in making it so that government costs shall be met and not be burdening for one ability to make the country's major job that of winning the war and winning it as quickly as possible.

Voluntary Service

The contribution to be made by the Canadian towards the rest of the world will be a two-fold, borne made by the national government to provide the expense of raising, equipping, training, transporting and maintaining Canada's fighting force and voluntary donations of money, goods, time and labor to provide for the war effort. The government's share of the war effort and the individual's share of the war effort are both essential to the winning of the war.

In addition to this, it has already been indicated, the people of the country are called upon to share out of a million dollar per day that the Canadian people have been called upon to share.

The individual citizen is called upon to share out of a million dollar per day that the Canadian people have been called upon to share.

There are, however, indications that the author and director of the *Hourglass* strategy used a study of the 1914-1918 war to indicate that the war should not in 1914 become a run upon the banks as they were in 1914. Morreux based his prediction on the fact that run upon spots have a strong emotional character and are one of the primary causes of upheavals in the market. He said, "every time there is a run upon the banks, there are upheavals in the market, and these are upheavals, quarrels, and sometimes such as wars and revolutions."

"Aunt Samantha Rules the Roost"

A hilarious three-act comedy of an old maid (who has had nothing planned on her since she was a baby), who drops down in her heart wants a husband but won't admit it, her a politician, with the aid of love messengers, try for her hand! None of it makes sense, but it will keep you on the aisle!
 A new "high" in stage performance on March 13 in the Elda Hall!

Juveniles Bow To Settler in Playoffs

Committed by "Pop"

Settler won the last round by a total score of nine to six. The Bashaw Juveniles played their second game of the Provincial playoffs, last week at Settler on the evening of the Twenty-second, and lost by a score of nine to six.

At the close of the last round the score stood two to five in favor of Settler, and the "lads" were really trying. Both teams were very hard to beat.

The Bashaw team was unable to do so, and the Settler lads scored on the score which was.

Water Glen Couple Married 25 Years

A pleasant event took place Sunday afternoon Feb. 25th when Mr. and Mrs. E. Gustavson celebrated the 25th anniversary of their marriage.

The gathering was held in the home of the couple at 1000 1st St. N. W. The celebration was presided over by Rev. P. Anderson, pastor of the church.

The couple, Mr. and Mrs. E. Gustavson, are both well known in the community. Mr. Gustavson is a successful businessman and Mrs. Gustavson is a devoted homemaker.

They have four children and are proud of their family. The celebration was a joyous occasion for all who attended.

Mr. Gustavson, speaking for himself and Mrs. Gustavson, expressed their gratitude with feelings and sincerity.

Personal congratulations were then extended by the guests of honor, after which many refreshments were served.

Hockey Team Fades From Playoff Picture

It took a succession and a high-powered "climax," to snap Bashaw's entry in the provincial playoffs, though the credit must go to the 7th line team for putting up a good game under hopeless conditions.

"Aunt Samantha Takes Revenge"

A hilarious three-act comedy of an old maid (who has just married) proved on her choice when a baby, who dries down in her front yards a husband but won't admit it. See a politician, with the aid of her lawyer, try to get her hand. "Aunt" of studies, just it will bring "in the title".

A new "high" in stage performance on March 10 in the Elks Hall.

USE GYPROC FOR NEVILLE!

PROGRAMME:

Your Independent Non Partisan Candidate and all the Independent Candidates have endorsed the following programme:

Public Debt to be refunded at a much lower rate of interest in co-operation, if necessary, with the Federal Government, and by fair negotiation with creditors rather than by confiscation and repudiation.

Private Debts to be speedily adjusted on the basis of ability to pay, with absolute assurance that the debtor and his family be adequately protected until such time as the returns from the production of his toil afford him a reasonable margin of profit out of which payment can be made, moratoria to be used in periods of stress created by disastrous climatic or marketing conditions to ensure the preservation of Alberta homes and reasonable standards of living.

ECONOMY OF ADMINISTRATION: Administration of the affairs of the province with the greatest measure of economy consistent with efficiency.

TAXATION POLICY BASED ON ABILITY TO PAY: (a) Lessening of the burden of taxation on land. (b) Steeply graduated income and inheritance taxes. (c) Agriculture and industrial fuel oil to be tax free. (d) Abolition of the Social Service Tax.

HIGHWAYS: Development of highway and market road construction as finances permit on a basis fair and equitable to all parts of the province.

EDUCATION: To provide as far as possible equal opportunities for all children by gradually extending and improving educational facilities.

PUBLIC HEALTH: Assistance to hospitals, local health clinics, and health services generally with health service available to all people.

Abolition of Patronage: Abolition of the patronage system in the conduct of all provincial business. Establishment of the merit system in the Civil Service and the restoration of the returned soldier preference; administration to be by a non-political Civil Service Commission responsible to the Legislature.

Co-Operation with other wheat growing provinces in support of a marketing policy under a Federal Wheat Board with a fair minimum price guaranteed to all producers.

Encouragement of Co-Operations: That encouragement be given to all sound co-operative efforts in the handling and marketing of the products of the farm, and other co-operative enterprises along lines calculated to reduce the cost of production distribution and living.

Freedom of the Press, of Speech and Assembly: To safeguard in every way the principle of democracy and guarantee freedom of the Press, of speech and assembly.

To Assist the Southern Country: in this hour of peril with all our resources of wealth, of industry, and of man-power.

1. He is honest and sincere in his convictions.
2. When he sets out to do something, it is done.
3. He is a respected citizen of Camrose Constituency and nominated in a democratic manner.
4. He is conducting a clean campaign.
5. He is not dictated to, dominated or controlled by any party or organization.
6. He will make a worthy representative.

FARM DEBT LEGISLATION

All Independent Candidates endorse, and have pledged themselves to reintroduce the Legislation as set out below to protect all farmers who are in distress.

This Act was passed to stabilize agriculture in the difficult period it was passing through and provided that every resident farmer could retain against execution creditors or seizures by Lessors:

EXEMPTIONS

A—An amount required to provide food, clothing, medical and hospital services and other necessary services of life for the next twelve months.

B—An amount required to repay any borrowings or debts incurred in growing or harvesting the crop or in feeding and preparing livestock for market during the previous six months.

C—An amount necessary to pay taxes.

D—An amount necessary to carry on farming operations for the next twelve months.

E—The livestock and farm machinery for proper operation of the farm.

In addition to the above it was set out in this Act that there should be full co-operation with the Farmers Creditors Arrangement Act and Officials of the Debt Adjustment Board were authorized to assist farmers in formulating applications under the Farmers Creditors Arrangement Act where it was thought necessary to assist in presenting their cases before the Board of Review and to engage a collector, if necessary, to assist.

WE BELIEVE:

WE BELIEVE—The best and only sound plan in any Platform is the character, moral worth and administrative ability of the elected representative of the people, especially when he is not handicapped by Political Interference or Party Interest.

WE REALIZE—That the Provincial Legislature is limited in its scope of legislation. We will respect its constitutional limitations.

A Government in a Democracy must keep faith with the people, or Democracy will perish!

Light enough to be easily handled—sure and tough to provide a permanent job—GYPROC is the ideal material for walls and ceilings. The large sheets of pre-cast fireproof gypsum reach from floor to ceiling, just a few sheets nailed in place and the job is done.

And GYPROC gives you all these advantages:

- FIREPROOF—therefore safe
- PERMANENT AND DURABLE—therefore economical
- MINOR EXPENSE HERE—Easier to install
- INVISIBLE JOINTS—panels surface is continuous
- SMOOTH, SQUARE SURFACES—easy to keep clean
- TAKES ANY TYPE OF DECORATION—its masonry

Local and Personal

Mrs. Gordon Evans and children are coming with relatives at Ash.

Edith Chase arrived home Monday morning from a business trip to City Bay, Oregon.

J. C. McNeil was married on Monday afternoon at 11:30 a.m. with a very beautiful child.

Shirley and Jack Brown left on Monday to visit relatives at V. W. (the Phillips) moved all of them to stay a few days with his grandparents, Mr. and Mrs. J. Ross.

The district, the all of Canada East of the Rockies, experienced record snow and unseasonably cold weather for a full week, much to the disgust of a large proportion of the population, including those whose food supply had not been. The weather has been hampered by road conditions, which are the worst of the winter.

**IN
EARLY BRITAIN**

We have traced the art of brewing from the Crusades of 900 B.C. up to Ancient Rome. The Roman soldiers introduced it to early Britons. Previous to their invasion, the usual drinks of the early Britons were water, milk and mead (an intoxicating drink made from honey). Beer being suitable to the climate, and so easily made, by an agricultural people with plenty of corn, it was gladly welcomed and soon became the national beverage.

Our amateur sext seemed headed for trouble when heavy rain fell Monday night, and again on Tuesday morning. However by sundown the skies had cleared nicely and when this paper was going to press late Tuesday evening stars were shining brightly, frogs were singing and all signs pointed to Wednesday being a lovely day.

Little or no spring work has been possible as yet, but with favorable weather a large number of farmers will be active in short order.

Roads throughout the district are reported to have suffered severely from floods, and repairs will be a considerable item.

A cablegram has been received announcing the safe arrival in England of Mrs. Fred Sykes and little daughter.

Vocational Guidance

Vocational guidance is a term which has come very much to the fore recently. At meetings of home school clubs, school boards, service clubs and other organizations interested in promoting the education and the development of the child to his or her vocation in life, one hears the question of directing the child's career in the path which will be of his or her own good and valuable and not harmful to him or her and to society generally after school days are over.

If an element of vocational guidance is to be applied to education in the home, the parents must be able to direct the child's career, the child and his or her vocation in life. It is essential that the child's latent interests and talents be known and that the child be encouraged to develop them to the maximum extent which the educational system will allow. This is for the benefit of the child and for the benefit of the community.

It is a life-time to be lived for the child which will enable him or her to place his or her life in the service of the community.

The purpose of vocational guidance is to bring the child's latent interests and talents to the fore and to direct the child's career in the path which will be of his or her own good and valuable and not harmful to him or her and to society generally after school days are over.

If an element of vocational guidance is to be applied to education in the home, the parents must be able to direct the child's career, the child and his or her vocation in life. It is essential that the child's latent interests and talents be known and that the child be encouraged to develop them to the maximum extent which the educational system will allow. This is for the benefit of the child and for the benefit of the community.

And here in this article we will be brought about. The co-operation of the parents and the school is essential in the vocational guidance of the child. The parents must be able to direct the child's career in the path which will be of his or her own good and valuable and not harmful to him or her and to society generally after school days are over.

It is essential that the child's latent interests and talents be known and that the child be encouraged to develop them to the maximum extent which the educational system will allow. This is for the benefit of the child and for the benefit of the community.

And by the time the high school course is completed, it is necessary to have a definite plan of action in mind. The parents must be able to direct the child's career in the path which will be of his or her own good and valuable and not harmful to him or her and to society generally after school days are over.

This is for the benefit of the child and for the benefit of the community.

It is not just parents who are responsible for the vocational guidance of the child. The school is also responsible. The parents must be able to direct the child's career in the path which will be of his or her own good and valuable and not harmful to him or her and to society generally after school days are over.

Parents' Real Problem

Continued from the Previous Page

The parents' real problem is to find a way to pay for the war. The parents must be able to direct the child's career in the path which will be of his or her own good and valuable and not harmful to him or her and to society generally after school days are over.

Canada's forests are now the largest source of lumber in the world. Britain uses Scandinavian and Baltic shipments but has been curtailed through wartime conditions. The United States has been the largest log for its pulp mills since the First World War. Canada, United Kingdom and others are steadily increasing Canadian sources of supply.

Almondo Dumas, who wrote much today as "The Count of Monte Cristo," would say his career would be a case of supply.

U. S. Shattered Supplies

After we came home here has happened in many different soundings, but probably no one has put them more concisely than J. H. Mearns, Jr., of New York. When he says that the Allies are fighting to "preserve the peace" he means "to keep the peace off."

The Allies want the world to go on as it always went. After we said it is to go backward, they said: "Back again!" That is the second world war.

The world's outfit against the earth is growing larger.

It is to be seen that the grain will be given a light feeding of grain and more than one third of the total amount of grain they will get for that day after the hens will be turned from a morning of constant feeding. The purpose is to feed in the morning the hens to consume a larger amount of feed and allow them to rest for a while.

As soon as the hens rest a little and the feed is exhausted they will continue eating small amounts until the regular morning grain feeding.

The purpose of the evening feeding is to give the hens plenty of feed to burn during the crop, with grain to fill the crop and the feed to be given about five and one-half hours

LOOK OUT FOR YOUR LIVER

Front a-tires, set ground.

Your liver is the largest organ in your body and indispensable to your health. It passes out the blood from the rest of your body, stores up the blood, gets rid of waste, stores up the food, and keeps the blood in your body. When your liver gets out of order, it does damage to your kidneys. You become constipated, stomach and kidneys can't work properly. You had better take a good medicine, then, to keep out of the trouble.

Before passing on these matters, we thought best to tell you that we have been successful with Pres-Cure, in 15 years.

A Task For All

If anything were needed to put the impressioned adult population in a more realistic view of the world, the British are not alone in this. In the past, the British have been the only people in the world who have been able to see the world as it is, and not as they wish it to be. This is the reason why the British have been able to lead the world in the last century, and why they will continue to do so in the future.

Some Facts Regarding

Cost of Hospital

Experience shows Government grant

Pays for Building and Equipment

Apparently the recent announcement of a Municipal Hospital in Calgary has caused a great deal of discussion.

Enough at first to make people ask what it would cost.

The answer is, of course, it would cost a great deal.

But it would cost a great deal less than it would cost to build a private hospital.

The reason for this is that the Government would be responsible for the building and equipment.

The Government would also be responsible for the operation of the hospital.

The Government would also be responsible for the maintenance of the hospital.

The Government would also be responsible for the salaries of the staff.

The Government would also be responsible for the cost of the food and other supplies.

The Government would also be responsible for the cost of the laundry and other services.

The Government would also be responsible for the cost of the heating and other utilities.

The Government would also be responsible for the cost of the insurance and other expenses.

The Government would also be responsible for the cost of the depreciation of the building and equipment.

The Government would also be responsible for the cost of the interest on the loan for the building and equipment.

to check your Furnace, Heater and Stove Pipes. I can provide Repairs for any Furnace, Range or Heater.

It's a miserable job in the winter, letting your fire out and chilling the house for some repair that can be done now.

Stoves, Windows, too, should be repaired NOW.

Bring them in now. I LIKE fixing them!

Your Hardware Man,

Bob Miller

 Rev. and Mrs. Fong visited with friends in Malton. They brought back with them a basket full of Edmon-ton, who has come to visit his grandparents, Mr. and Mrs. H. Moore and his sister, Mrs. Macken.
CARD OF THANKS
 Mrs. Dore and family wish to tender thanks and deep appreciation for the many kindnesses extended to them in their recent bereavement. They also wish to thank the many friends who shared their grief.

Hired Man Insurance!
 YOUR WIFE may be strong, and as YOUR WIDOW be a capable of handling the plow and sickle and doing most of the other chores in fact. But she will need help to really run the farm.
 WHY NOT arrange to place a little policy that will guarantee her \$500.00 to \$1000.00 a month for 5 or 10 years? It takes no little money, but it may make it possible for her to keep the farm going.
 Why not investigate our Guaranteed Policies!

A "gentle" way to describe lynching has been found in Arizona's history books.

The word was first published in Tusconian, Arizona's oldest newspaper, in 1907 as the toughest, harshest meaning to the Southwest.

A February, 1860, issue of the paper derived from the citizens started the Tucsonian and removed Jack Henth, who managed to escape the death penalty.

CHAPTER XXVII.

Nearly twelve hours before that pregnant moment a gun-chewing thriller had found himself in an awkward position.

"A female and a screaming female" named the chauffeur. "This is most embarrassing."

So saying, he lifted the girl and laid her *simply* over his shoulder. With his disengaged hand he dragged the dumb old lawyer to his feet.

[illegible]

"You are alive," and the chauffeur jeffily, "which is proof that I did not hit you."

"You choked me!"

The chauffeur uttered a tad of indignance.

"Go ahead, Blackboard!" he said.

Apparently one hundred and ten pounds of femininity was the tin on the chauffeur's strength, for as he

Up the stone steps he walked and into the hall. The servant maid came peeping round the corner, and almost fell down the kitchen stairs in her excitement, for something was happening at Royaston House where nobody was expected.

The chamberlain lowered the girl into a little armchair. Her eyes were open; she was feeling dully ill.

"There is nothing in the world like a cup of tea," suggested the chamberlain, and called in the maid, so imperiously that she never even glanced at her master. He turned satisfied

"I think you had better put that away," said the chauffeur gently. Adown only then became aware of his presence. He had a fancy smile, a walrus-like and black, and as he spoke it wagged up and down. SEALED SILK

Orient's Seasonal Discovery

ONLY the new Orient's "Bountiful" Store has these features:

- 1. Price-reduced stock (lower rates)
- 2. Increased (slightly reduced) stock
- 3. Water repellent (rain resistant)
- 4. Color permanently will stand (repeated laundering)

Orient's exclusive "Sealed Silk" prevents the trick! The shock of water in this treated thread eliminates wrinkling, tearing, fraying, stretching, discoloration, keeps color in, keeps stains out.

Santa From Holden On Hockey Hike

The first hockey game of the current season on hold was on the 10th Street team Holden took on 6-11 December over a hard fought team from the 10th Street team. The game was played Monday night and was closely contested. Barry Mills, Holden goalie, stopped a hard shot with his chin, but returned to his cage shortly after being spotted by the referee.

Christmas Concert Well Received

The annual Holden School concert held Friday evening last at Elks' Hall. Through the efforts of the young ladies' board, the concert was presented in the usual form, but this season and the large number of guests present, it was a most successful one. The program, the various numbers which were presented by Frances J. F. Holden, was an excellent one.

to explain its magnetism. Scientists to solve this puzzle have made on a scale almost greater any other scientific project.

Many scientists thought they knew the earth was a magnet. It was taken for granted that it had permanently magnetized, like bar-magnet magnets with which we pick up nails and other objects.

Probably most persons believe to-day, and until quite recently, that the earth's magnetism was caused by the earth's rotation.

It is not as yet known that such a mechanism be permanently magnetic, that the material be not a permanent magnet or that it be an electro-magnet that is, that in which the magnetism is produced by electricity constantly flowing through a conductor.

This may explain the New York phenomenon but locally the theory has yet been found.

The Country Inn
Doing a Sound Business in Town
(Adapted to London)

Hotels and boarding houses in the small country towns within easy reach of London are doing extremely well.

The usual reason is fortunate if it is an owner—a room-owning family—these places which used to cater chiefly for transient guests have become the temples of steady Londoners whose homes have been destroyed or damaged and who are able to settle for the time being in institutions from which a daily journey to London is a necessity.

The country inn, off the beaten track, has acquired a new lease of life. It often neglected accommodation has not been in such vogue demand for years.

On the whole, small tendency is shown to make tactically increased charges probably because there are rural areas are not far enough from London to escape rising and noisy nights. Edinburgh Scots man.

Worms in the Soil Problem

Five years ago, thousands of tons and tons more of manure, during the 1950 growing season, lay in the streets of New York City. The manure was piled up in the streets, and it was a sight to behold. "I understand," he said sympathetically. "What shall I do? Smith?"

"Don't!"

She smiled again. A passing truck caught her eyes, she noted a name mentioned on its side and said "Hello, Mary. Hello" that sounds businesslike.

"Okay, Miss Ellen." He grinned and patted her hand.

Mary Ellen. The name sounded strange to the girl, as strange as the life she was about to enter.

John Britton led her up a flight of stairs and entered straight in the dining room, through a glass door marked "College Club." He reviewed the desks near and girls, hand cases and the clutter of typewritten. Nancy stared about him as they passed through the room. This was where she would spend her days from now on it seemed to her that the clutter of typewriters thinned a little, and she became unconsciously conscious of the curious scrutiny of many eyes before

The British Chamberlain-Observers says the newspaper is more than a disseminator of the news. The newspaper's function as a mover of goods is also important.

Large retail merchandising outlets in the cities show a healthy gain in business over this period last year. With by week the figures tell this story of expanding distribution that centers in one of new prosperity.

With what appeared to be an attempt at changing the subject, John Brewster said: "I suppose you know I've taken her first flying lesson today."

Nancy nodded. She knew it very well, too well, in fact. "How do you like her?" she asked a plant.

"She? Oh, my experience doesn't amount for anything. I've been satisfied with my privation to do something like the way I was." A deep rumbling chuckle came up from his lips.

"Headstrong little idiot!" There was warm pride in his voice.

Nancy said nothing. Iris Brewster, her childhood friend and colleague

the wild of a sister, had been accused. Almost drew a breath, out of sight and

TO BE TOO

Winnipeg R. E. Law of United Grain Growers, predicted "disappointment" unless because the Dominion government did not increase the level of wheat in its 1941 wheat contract.

Mr. Law said at a stated company had realized "the situation of farmers' wheat from the 1941 crop was not good and we had recommended that there should be an increase in the basic wheat price."

"There will be disappointment if the government did not do something to make an increase in the basic wheat price."

statement added:

"Delivery of 226,000,000 bushels of wheat at home wheat prices... out of which the farmer's average of about 35¢ per bushel, will result in a wheat crop of about \$115,000,000 from wheat crop. That is the wheat income Western's had for many years

"To some extent the in western agricultural life is made up by an income from other sources, including income provided for in case to the west these amounts in so much as was accounted for an increase 10 to 15 cents a bushel in wheat rental price.

"There will be great use the desire to which diff-

merchandise. Even with the underbids prevalent, the firm found the money pile almost come to nothing due to the orders of fast ships who found that their cargo conveyed a much better price than they could get home. The cargo was the same. When all the freighters came to together the bottom fell out of the market.

If the ship was captured, then the insurance companies had to make her lose good and no restorative course had little to lose. When the carrier lost was finally paid it was the amount of the cargo.

Life Insurance Companies in British Support Shadowing Pulling Out

One of the many surprises of the recent lightning capitulation of Britain has been the reluctance of people living in constant peril of death to insure their lives.

Reports of 50 of the largest life insurance companies in the British Isles that new business in 1940 was 20 per cent. below 1939, which already was 30 per cent. less than in 1938.

The decline is continuing at a rapid rate. It is estimated that 1941 will be 10 per cent. below 1940.

Gold Recovery

Many claims staked in New York by Massachusetts geologists.

The department of mines and natural resources reported that discoveries of gold "which show promise of commercial importance" have been made in the vicinity of Saratoga and Rensselaer rivers and Wray lake in the Mohawk Territory.

"Already a total of 800 claims have been staked in the new field of exploration about 120 miles north of Toronto and settlement and preparation have been made for the carrying of extensive exploratory and development work during the coming summer," the department's weekly bulletin stated.

Delayed Ship—According To British efforts to free the harbor of mines were delayed for 16 minutes while a Nitlen was sent from the Italian coast to Georgia. The Italian had expected for 48 hours the forces that placed the vessel's destination. Two minutes who boarded cruiser from a roving boat found at crying. They summoned a steamer, which took the cat and it with, the shipper leaving as to how it could be turned to health.—London Daily Telegraph

In Memoriam

JACKSHAW—In loving memory of John Jackshaw Sr., who passed away just a year ago to day, April 26, 1940.

His weary hours and days of pain, his troubled nights are past,
And to our aching hearts we know
He has found sweet rest at last.
Ever remembered by his loving
WIFE, AND FAMILY.

Food-Test Unit Exposes Unsanitary Conditions

Four weeks ago we asked the question: Will people eat their own food? The whole idea of food inspection and control is a new concept.

Since the announcement of the Department Government Food Policy for 1967, it is apparent that our eating methods will be altered. I have mentioned on several occasions that the use, and the understanding of, this unit for which the use is largely responsible, much will have

It is most unfortunate that despite the efforts but fail to persuade the exporters to the United States. Since our 1981 import ban on scrap, less than two dozen, we could have imported more than 100,000 tons of scrap. The United States has been denied to great economic loss. The U.S. has been denied to great economic loss. The U.S. has been denied to great economic loss.

"GOD BLESS OUR BRAVE DADDY OVERSEAS"

FOR EVERY CANADIAN who sails the deep, for every soldier who flashes through the skies, and for every other man in the fighting forces, the prayers of the nation "rise like a fountain, night and day."

In times of crisis our people stand steadfast. In daily devotion they renew the flame of faith and arm with unseen powers their warriors in the field.

Oftentimes they discern the Unseen Hand. Witness the miracle of Dunkirk. Witness, too, in

the darkest hours the emergence of great inspiring figures to steady the ranks of Democracy and fire its courage and confidence.

Church bells are ringing throughout Canada calling men and women to worship and sacrifice in defence of our freedom, the sanctity of our homes and the future of our children.

Injuries Fatal For Police District Former

George Scott, aged 69, long time resident of the Police district, suffered fatal injuries. Tuesday evening of last week, when he was called to his home by a light truck driven by Royal Flying Corps of Minor. The injured man was injured in a Lumbering hospital, where death occurred Sunday night.

A woman's report into the tragedy was issued in Lacombe on Monday. She was admitted to Friday after some statements had been taken. (Cousin Dr. F. D. Lundy is in charge of the report, which will be in the hands of Constable Macdonald of Bashaw, who investigated the circumstances connected with the accident.)

It was revealed that Scott's injuries included a crushed and fractured spine. Funeral services were held in Lacombe on Sunday afternoon, with a number of members of the Police district, and a number of members of the Police district, and a number of members of the Police district.

The late George Scott was married and had lived here since 1914. He was born in Caledonia, Ontario, and is survived by one sister and six brothers.

OBITUARY

CLARA HELENE JOHNSON
Victim in infancy of a rare affliction which deprived her of speech, sight, speech and hearing, Clara Johnson, a girl of 10, died on Friday, May 30, though she had been suffering from this rare affliction since the age of two. Her condition could not be successfully treated. For the last twelve years she had been bed-ridden, though enjoying a great deal of food and much interested in things around her.

Clara Johnson Johnson was born in Lacombe on Oct. 1, 1911, and died on Friday, May 30.

Funeral services were held at the home on Monday afternoon. Rev. C. A. Wilson officiating. Many beautiful floral tributes of sympathy were in evidence. Burial took place in the Lacombe cemetery.

Flowerbed and Mrs. Johnson, were in charge of funeral arrangements.

Mrs. Art Robinson of Bashaw is visiting at the G. J. Wilson home.

Behind The Scenes

How Women In Britain Carry On
In Sight Of Elizabeth II

One needs only to see a good deal of things that British women have done in the past to see that they are not so much as they are.

WEDDING

HANSON LEE

A very pretty wedding took place at the home of Mr. and Mrs. Ed Platt on Friday the 10th, when their daughter, Louise, was united in marriage to Mr. Mark Hanson of Villaville, Ohio. The bride was handmaid, and the groom was the bride's hand having school. Rev. Mr. Wright of Donalds officiated.

The bride was lovely in a blue-sapphire suit, with dove wings. Her sister, Florence, who acted as bridesmaid, wore a blue crepe dress, and both carried bouquets of garden flowers.

After the ceremony, a dinner was served. Betty Crampton, niece of the bride, gave a two weeks visit in Pontiac, Kansas, Vancouver and other R.R. points.

About 20 guests enjoyed a splendid dinner at the home of Mr. and Mrs. Ed Platt.

Mr. DeZure returned to Lac Ste. Anne with his brother, who had been visiting him some time.

Mr. and Mrs. Remembrance and Mr. and Mrs. S. C. Mahan of Villaville, were the hosts of T. Karik.
